## Northeast academy for aerospace and advanced technologies

3.00R3 Student Lottery Procedures The following student lottery procedures comply with the NC Open Meetings Laws provided in N.C.G.S. 143-318 and the laws governing public charter school admissions as stated in N.C.G.S. 115C-218. The date of the lottery will be placed on the school website prior to January 1 each year. The time and location of the student lottery will be made public beginning at least 30 days prior to the scheduled lottery date. Students will be offered admission in accordance with the General Statutes of the State of North Carolina and NEAAAT Board Policy 3.00 - Admission Policy. Application Window: The application window for lottery purposes will open no later than 12:01am on January 1 each year, and it will close at 11:59pm on April 30 each year. Only those applications received and/or postmarked by the deadline will be entered into the lottery. Applications received after April 30 will be ineligible for the lottery and will be added to the post-lottery waitlist according to the order in which they are received. Applications will continue to be received, and waitlisted applicants offered admission, until the 21st day of each school year. Applicants who do not gain admission through lottery or the waitlist must submit new applications for the next admission cycle. Application Review: The school will review for accuracy each and every application received by the deadline. If inaccuracies within the application are found upon review, the parent/guardian of the applicant will be notified to confirm the information submitted and/or to make necessary corrections. Though the school will make efforts to identify inaccuracies and confirm information, it is the responsibility of the parent/guardian to ensure that the submitted information is accurate. Enrollment Preferences: Pursuant to N.C.G.S. 115C-218 and NEAAAT Board Policy 3.00, the following preferences exist: Faculty/Staff Preference; Previously Enrolled Preference; Enrolled Sibling Preference. Faculty/Staff Preference: Applications of students whose parents are employed by the school or who have made a commitment to work at the school in a full-time capacity will be granted preference and will not be placed into the lottery pool. Previously Enrolled Preference: Applications of students who were enrolled within the two previous school years but left the school to participate in an academic study abroad program or competitive admission residential program, or because of the vocational opportunities of the student's parent. Enrolled Sibling Preference: Applications of students who are siblings of students enrolled at NEAAAT during the previous school year will be granted preference and will not be placed into the general lottery. If the number of sibling applications exceeds the number of available spaces in a pre-existing grade, a sibling lottery will be held before the general lottery to fill vacant seats in those grades for the next school year. Lottery Procedure: The lottery will be conducted electronically in grade level order by an unbiased third party. Lottery results are not final until certified per NEAAAT Board Policy 3.00 - Admissions. Students will be offered admission according to the order in which his/her assigned number is drawn. The maximum capacity of each grade has been set by the board. Students will be offered admission to a grade level until the capacity set by the board is reached. The names of all remaining applicants will be added to the waitlist according to the order in which their assigned numbers were drawn. If a student fails to meet entrance requirements (i.e. promotion to the next grade level by the previous school) for the grade for which the student applied for admission prior to the first day of the school year, the student's application will be deemed inaccurate and the offer of admission will be rescinded. This student may submit a new application for admission to the grade for which he/she is eligible, and the application will be added to the lottery waitlist according to the order in which it is received. Waitlist Preference: Pursuant to NEAAAT Board Policy 3.00 - Admissions, waitlist priority will be given to siblings who apply to the charter school for admission beginning in the same school year, such as when a sibling was not initially admitted due to grade level capacity. The School-Wide Title I Plan is shared bi-annually and a print copy is available upon request.The Student-Parent-School Compact is located in the NEAAAT Student Handbook.Parents, Students, and NEAAAT staff agree to participate fully in the Compact for the best interest of the student.NEAAAT encourages family involvement; Parent and Family Engagement PolicyNEAAAT employs educators who meet high-quality workforce standards.Educator credentials are posted outside of classroom doors for easy viewing.Parents may request a copy of the professional qualifications of their child's teachers and paraprofessionals at any time.NEAAAT's yearly State Report Card (2023) can be located on the school website.NEAAAT provides supplements for free and reduced meals. The application is available year-roundNEAAAT can provide assistance in locating resources should your student become homeless.NEAAAT participates in Project Child Find and has information available at school.NEAAAT reports the academic growth of students every three weeks through progress reports and report cards. Parent Conferences are held throughout the year. Please contact your student's coach to schedule a time.NEAAAT participates in the NC Testing and Accountability Program and reports state testing results to parents with the final report card of the school year. More information can be found at the NCDPI Testing Website.2024-2025 Parents Right To Know2024-2025 Testing CalendarRights to Know- Testing We're so glad that you've taken a few moments of your time to learn more about our school! As a public charter school, all students currently residing in North Carolina are eligible to attend our school — at no cost! We offer transportation to and from school each day across a six-county region so that transportation is not a barrier to attendance, and we operate a Free and Reduced Lunch program so that no student goes hungry. At NEAAAT, students engage in real world, hands-on learning that challenges and prepares them for the future of work. In addition to innovative middle school classes, general and honors high school diploma and college transfer pathways, we offer very unique, specialized courses in the fields of aviation, IT, and (coming this fall) healthcare. In fact, we are proud to offer our students access to courses developed by some of our national partners, like the Aircraft Owners and Pilots Association-Purdue University High School Aviation Program, Carnegie Mellon Robotics Academy, and the CodeHS Curriculum Pathway. With the help of our college, university, and business partners, we're continuously crafting new and exciting learning opportunities to create very clear, seamless pathways from high school, through college, and on to high-paying, high-demand careers in our area. By keeping our students at the center of all that we do, our team works tirelessly to graduate students who are ready and confident to tackle life's challenges. I encourage you to peruse our site to learn more about our school. We hope you find this information helpful, and we encourage you to join us at one of our upcoming events, such as our annual Exhibition of Student Learning. Wishing you all the best, Dr. Andrew R. Harris, Chief Executive OfficerNortheast Academy for Aerospace and Advanced Technologies @YASSPRIZE Yass Prize Semifinalist "The \$1 million @Yass Prize is considered the "Pulitzer of Education Innovation," and along with the STOP Awards, will distribute millions of dollars to their winners. Follow along our @Yassprize journey! " When I heard that this innovative STEM school was going to be in Elizabeth City, I was definitely drawn to it," said Tonya Little, chief operating officer of the Northeast Academy for Aerospace and Advanced Technologies (NEAAAT). "Science education, math education — these are the skills that every child needs to be able to think critically." NEAAAT launched in 2015 with 120 students and has grown to approximately 350 students from eight different counties. As a public charter school for grades seven through twelve, the Academy's admissions are based on a lottery system for the region. Elizabeth City State University houses NEAAAT's campus, so students can also enroll in college courses. "We are teaching in an innovative way, and it's working," said Edward O'Neal, founding board member of NEAAAT. "Our students are so engaged in every single thing that you see here in this school." See the video below from the NEAAAT student learning exposition where students shared some of their STEM projects as well as photos from a campus visit to learn more about this innovative school.
