TOEFL Speaking: Example response B for Qu. 2 on Test 2

Topic ⇨

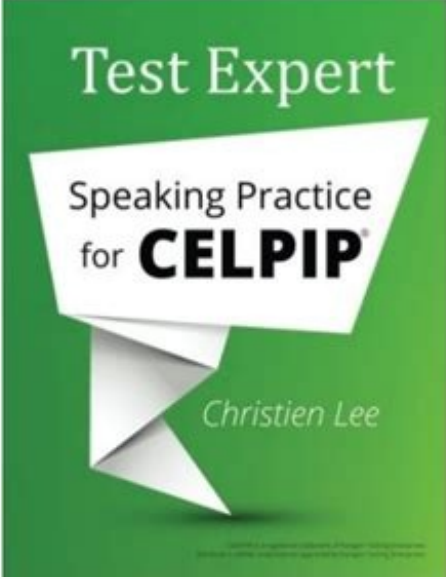

I would have to say that I agree – that it’s actually better to study in collaborative pairs or groups.

Main Reason (1)
+ supporting details & examples

My first reason for this is... I think this is actually quite representative of what... real world working situations involve. You know, whether it’s... business or science or even education – a lot of the work you do will involve working with other people in teams to... reach certain objectives or goals.

Let's face it. We have multiple practice tests available for free there. I'll take a look at any writing - resumes, letters, emails, personal statements, etc. Practice Writing English Practice writing English by taking a few classes or submitting your writing for correction and feedback. But hey! The ideas are right in front of you! Use the question and the context as a guide. If you wish to record your own answers, record and save your responses using your computer microphone or your own recording device (cellphone, digital recorder, etc.). If you wish to understand your weaknesses better and get personalized feedback on your responses, sign up for our our intensive CELPIP training. Speaking with a timer ticking in front of you is definitely not natural, but if you practice at home with one, you'll find that it's not impossible! So let's first breakdown the CELPIP speaking test format for you so you know what you're getting yourself into. Notice that there are two tasks (1 & 7) in which you'll have to speak for 90 seconds instead of 60 seconds, BUT, you only have 30 seconds to prepare! These are tough, so it's worth it to practice these tasks a lot in your exam prep. Instead, use real-life stories from your personal life and give your personal opinion throughout your responses. Important tips for your CELPIP Speaking Test PREP TIME You won't have much time to prepare for your response, and unfortunately, most of that time will get taken up as you actually read and understand the question! In other words, if you only have 30 seconds to prepare for your response, you might spend 10-15 seconds reading and understanding the question. You'll only have to speak in Part 2, but the good news is you'll be given another 60 seconds to prepare again. USE THE QUESTION FOR IDEAS A lot of our students say they can't think of ideas. In this sample test, no score will be provided for any of the Speaking tasks, and your answers will not be recorded. However, in this sample test, in order to move forward in the test you must click on "NEXT." Try to complete this practice Speaking Test in around 20 minutes. Knowing what to expect on your test day will set you up for success. We suggest contacting your exam centre to familiarize yourself with your test environment and the latest safety protocols such as what you can bring with you so that you're fully prepared. If you are ready to take your test, register for your CELPIP Test using the link below. Are you not confident in your speaking skills? Make sure you take advantage of those materials to familiarize yourself with the test format. The question types and their durations will always be the same, but the topics will change on each test (of course). If your speaking score in the CELPIP test is still lower than your target score, you should practice consistently. You'll find you've actually got tons of ideas!! TEST ENVIRONMENT Be prepared for a noisy test environment! Everyone complains about this. While you're speaking or trying to think of ideas, someone next to you will be speaking loudly...and oh boy, that sure is distracting! Due to the pandemic, there is more space now to allow for social distancing, so you'll at least have a computer between you and the candidate next to you. Private lessons are great when you want to increase your CELPIP level in a short time. At Presto English, we help test-takers with their CELPIP preparation. Try to set aside some time daily to practice with different topics. We have helped many students achieve their target scores, and we would love to help you too. However, try not to do too many things in one day. This is totally normal! So how can you maximize your preparation time? Think of at least 2-3 different ideas that you can talk about in your response. Coming up with fake examples is hard to do on the spot, and it might make you sound like a robot. Just kidding! The CELPIP speaking test doesn't have to be so scary! But there is one aspect of the test that is challenging, and that's using the timer. In the first part, you'll be given two pictures that you'll have to choose from, but you won't have to speak. The speaking tasks are always given in the same order, so prepare for the next task once you complete the previous task. You only have one shot in the CELPIP exam, so you want to be as prepared as possible. The Next Step If you're not sure where to start, you can opt for an English lesson with us or join our 7-day online training. Through our private lessons, we can focus on a specific area, e.g. speaking test, reading test, writing test, listening test. In fact, you'll do better if your answers sound real and authentic. For instance, in speaking task 6, we always deal with a difficult situation.
