The official ability descriptions for teaching purposes are dissected into smaller components to help assess the learners' progress, whether it's their own English proficiency or that of students. This more detailed breakdown can aid teachers in evaluating a student's level and provide a clearer understanding of where they stand. The B2 level, as per the Common European Framework of Reference for Languages (CEFR), is considered an upper-intermediate level, which requires the ability to understand complex texts, interact fluently with native speakers, and produce detailed writings on various topics. The B2 level in English is not measured by an official test but rather serves as a preliminary assessment. Focus on mastering key topics such as verb tenses, modal verbs, conditionals, reported speech, and the passive voice. Familiarize yourself with vocabulary, collocations, and understand main ideas from newspaper articles, literary texts, and conversations. To improve, practice writing complex texts, listening to movie plots and radio shows, and expressing yourself fluently in conversations.
