Story[] Pokémon SGS takes place in the regions of Johto, Kanto, a bit of Hoenn, and the Orange Archipelgo. It's a remake of the second generation, Gold in particular. Pokémon[] Shiny Gold Sigma includes Pokémon from Generations from 1-7. Changes from Gold/Silver/Crystal and HeartGold/SoulSilver[] Ralts (albeit rare) can be caught on Route 29 and the route between Mahogany Town and Ice Path. Due to a glitch, female Kirlia can still evolve into Gallade, despite Gallade being male-only. Whitney's gym has some Fairy-type Pokémon. The player is constantly challenged by Red, even before meeting him at Mt. Silver (even then, it's implied you face Ash instead), and Ruby/Brendan. Due to a bug fix, the player's other rival is Tracey from the anime, who replaces Blue in the original game—FireRed—as the first trainer in gyms. The player is also challenged by May/Sapphire, who, for some reason, has a Pikachu. Tracey and May have a cold attitude toward the player, unlike in the anime where they are good at heart. HM Surf is unusable even after obtaining Morty's Fog Badge. However, Surf can be used after beating Chuck. Morty's badge instead allows the player's Pokémon to use Fly outside of battle. Eevee (rare) can be caught in the National Park. All Eevee evolve via a stone: Umbreon evolves via Moon Stone, Espeon via Sun Stone, Leafeon via Leaf Stone, and Glaceon via Dawn Stone. In addition, due to the Ice Stone not being present, Alolan Vulpix evolves into Alolan Ninetales using a Dawn Stone. Many evolution items can now be found in pots. Lyra, the main female character from Pokémon HeartGold/SoulSilver, is now Chuck's niece and has had her character changed to a spoiled brat who scolds the main character. She eventually calms down and helps the main character. Raikou and Entei are no longer roaming legendsaries. The Kanto region is mostly the same as it is in the Generation 2 games, but due to the game being a FireRed hack, it features the puzzle in Surge's gym and a different version of Lavender Town's music. In the Soul House (also known as the House of Memories in the Gen 2 remakes), it's possible to encounter wild Pokémon. After beating Gary (who replaces Blue), the player's adventure isn't over as they must collect all 21 badges from Hoenn and the Orange Islands in order to get to Mt. Silver. "Glitches"[] When asked for a rematch, the trainers can have Pokémon up to level 70 (despite the player not beating the Elite Four yet) and have Pokémon that weren't on their team (which in turn means that they don't have the Pokémon they had when you first met them). Keep in mind that trainers can still challenge you to a rematch even if their number isn't registered in your Pokégear. Item balls can respawn. Pokémon in your party can change to other Pokémon in your PC and even into their previous forms. If the player loses to the Elite Four, they can fly to New Bark Town and walk on the tiles with the script to trigger Elm's phone call to obtain the S.S. Ticket and access Kanto early. After winning against Will, the game turns black. Attempting to evolve Alolan Vulpix will result in a black screen. Patching guide[] Patch v1.4 onto a clean Pokemon FireRed 1.0 using ROM Patcher JS. It's updated to v1.4 now! My game ain't saving right, shows up a "I'm subcircuit is not installed, please exchange backup memory" issue.A: On your emulator, set the memory to Flash 128k, Automatic Save, Get latest Myboy/VBA/whatever emulatoryou're using and game, and put your gba file into Downloads files. Restart. I can't continue after Elite Four.A: Same reason goes as before. I can't continue my game save after an update.A: Save first into a safe place (PokéMart at Cherrygrove, for instance) and save into a slot with your old update, saveexactly when you save your game internally (when it puts "wanna overwrite?"). Then load that slot into the new game.save internally, reset and you may continue without issues. There's some items that I can't get.A: You're playing with an old save game? Then you maybe can't get some new stuffs.Inside the game Beginning my game, after I lose I start at Violet City.A: Restart, you shoudn't lose until you solve Mr. Pokemon Egg quest and get into Violet. The guy from Violet ain't trading an Onix, instead, is a Budew.A: This is a new hack, a new game, so, can't be 100% exact copy-paste. The TM ain't right, at gen 2 there's no TM01 Superpower, it is Dynamic Punch (or any other).A: Same as before. Appears to be a wild Legendary Dog.A: Talk to it and let it go. If appears again and get away, it's ok, you just need to find it one more time. After doing a Ruis of Alph puzzle nothing happened.A: This feature isn't currently working properly at the moment, and thus solving the puzzle is not necessary to access thechambers. Select the other side of the stone tablet on which the puzzle is located to access the chambers. Talk to sidewall. Be careful inside, buecause there's an insidious issue making your game wrong, so I suggest you to get out as soonas possible the very first time, then I'll be normal. I can't get away from the "tree" bonslly (ex-sudowoodo).A: Get Squirtlebottle from Flower Shop Girl at Goldenrod after won Whitney. National contest ain't showing up.A: Set your game into another time and day and try again, or walk a lot and wait. Legendary Dogs aren't going anywhere.A: Download latest version. I can't use SURF after 4th badge.A: It's because in order to use SURF you need to face Chuck 5th badge first. Try to go trough a new cave Left Olivine, usingStrenght to move some rocks over there. Some Flying map ain't showing up.A: Download latest version. Try to go again to that city and get into Pokemon Center. Try again. I can't get into Mahogany's Rocket Warehouse. Something is wrong.A: Try to not lose or get out from that untill you get TM Whirlpool from Lance. I don't know how to mega evolve. My Pokémon aren't mega evolving.A: Make sure your Pokémon may mega evolve. Get Mega Stone from Fuji at Violet, and Mega Stone X from Roxanne atDim Deep Cave. Get Mega Brazalet from Elm's assistanshipt right trough Mahogany Town, the one who makes some "??when it sees you. To activate Mega evolution, let hold Mega Stone or Mega Stone X to a Pokémon, and in-battle pressFight and a ball will show up in your exp box. Press START and select any move. Mega Stone X is meant to be hold byCharizard and Mewtwo. I can't continue with Clair at Blackthorn. Gym is closed.A: Go to Goldenrod Radio Tower and fix Rocket's trouble. Get both keys to free doors. I can't pass trough stones at Blackthorn Gym.A: Try again. Clair didn't give me any badge.A: Need to go to Dragon's Den and use whirlpool. I don't know how to get X HM.A: Flash from Elder at Violet, Cut from Cutter at Azalea, Rock Smash by fatty next to Sudowoodo, Strenght by a Sailor atOlivine, Surf by Kimono Gentleman at Ecruteak, Fly by Chuck's wife at Cianwood, Whirlpool by Lance at Mahogany,Waterfall Inside Icefall Cave, Dive by Misty at Cerulean, Headbutt at Ilex Forest, Sweet Scent by girl at Ilex Forest outside,Dig at National Park. I can't get on board on SS Aqua Ship.A: Talk to Elm. Kurt ain't talking to me.A: Two options. First, set your game into another time and day and try again, or walk a lot and wait. Second, Talk in Saffronto a Telephone cabine. I can't continue after won Sabrina.A: Go to Silph Co. and face Rockets in there. CAREFUL: It could be an issue with elevator, try to not enter from front face,but by a side to get into a up floor. I can't get out from Safari, I haven't any Pokémon, Rocket's stole from me.A: Careful, need to try again that script later. Do not use cut while you don't have any Pokémon, Koga should help you. Ithot, do something else and try again later. There're some invisible things.A: Those are legendary Pokémon. To get them all, first need to catch some before to get some others (I.E.: Catch Nihilegofirst at Submarine Lymph in the middle-left side to awake some others Ultra Beasts). Where is Kyogre and Groudon.A: Both are hidden. First one at Submarine Lymph at Bicycle Road using Dive, down hidden. Groudon is hidden at DimDeep Cave at Blackthorn deep in there, touching a wall. Rayquaza is at Sky Tower. I can't capture Snorlax.A: Get an Expn Card at Radio Tower and a PokéFlute. I can't find Machine part at Misty's gym.A: Try to do something else and try again later, it's suppose to be on the pool hidden, look for it in the walkthrough. There are some places with doors and stones and I can't pass.A: Face Red/Ash at Mt. Silver to open some places. Some others will be opened while you complete missions. How to catch Celebi?A: Talk to a telephone at Saffron and get GS Ball. Wait for Kurt. I can't get into Viridian Gym.A: Need to face first Blaine's gym at Seafoam Islands. I can't catch Articuno.A: Some stones aren't working properly, but there's a new whole to ge when Officer Jenny is out of there, get into thefinal whole and you will see Articuno. I can't get into Mansion at Cinnabar.A: It's burnt to the grounds, don't you see? I can't get into a new Orange Island.A: See walktrough guide. There's an order. I can't fly at Cherrygrove or any Orange Island.A: Those are islands, not important and there's not any other fly position I can use for them. Cherrygrove ain't thatimportant and the others I put some Sailors to get fast into Vermillion. How to face Drake at Pummelo?A: Beat every Orange Leader First. After I beat 3 champions wht else I can do?A: Complete pokédex, Battle Frontier. There's no enough amount of space at bag or box to put my items and Pokémon.A: This game was meant to have 386 pokémon, and I put over 850, so use spaces carefully, seel items aren't needed orgive it to some Pokémon to hold them.
