Trek Trek Remedy AL Frameset Loading more... Let us know. Skip to product information Remedy AL is a burly trail frame set built for rough trails, big hits and wild all-mountain rides. Well Tredz, you have certainly defined yourselves as a one star company when it comes to sorting out a damaged bike, because of poor packaging and a really bad courier (DHL) I personally feel you need to reconsider how you deliver large heavy bikes. This long-travel 29er is the trail bike of trail bikes. It sports 27.5" wheels, is priced at \$3,799 USD and comes in a range of sizes, including 15.5"" High, 15.5" Low, 17.5" High, 17.5" Low, 18.5" High, 18.5" Low, 19.5" High, 19.5" Low, 21.5" High, 21.5" Low. Every model comes dressed to impress with a SRAM Eagle 1x12 drivetrain, the latest 160mm front suspension from RockShox or FOX, 27.5" x 2.6" tyres (with clearance up to 2.8"), and multiple frame color options. After measuring your height, use the size chart below to find the typical Trek Remedy 27.5 C Frameset size for your height. A 27.5" aluminum frame full suspension enduro frameset. Remember that these sizes are a general guide and bike sizes can vary between riders and bikes. The best way to find your size is to go for a test ride. This electric mountain bike charges rough trails just like its non-electric brethren, then powers you right back up for another run—no shuttle necessary. A super-stiff downtube with proven tech like ABP, plus 150 mm of rear travel with a RockShox Super Deluxe Select+ shock make this frame ready for a build that suits your style. I work for a company and we send items with DHL and other couriers, but our packaging is designed to ensure the product arrives safe and undamaged. I am sorry, I tried to resolve the matter in an amicable manner and gave you the option to sort of line but you left me no option. We spent a lot of time with our packaging company to design a box which will pass the drop test. This bike smooths junk out better than anything I've ridden before" Read more Really good at slow-speed technical terrain, an exceptional climber, and holds its own almost everywhere else. Alpha Platinum Aluminium, tapered head tube, Knock Block, Control Freak internal routing, downtube guard, ISCG 05, magnesium rocker link, Mino Link, ABP, Boost148, 150 mm travel Fox Performance Elite Float X, 2-position damper, open-mode adjustment, 230 mm x 57.5 mm Bontrager Elite, 35 mm, 0-degree, 45 mm length Have some feedback or spotted an issue? A super-stiff downtube with proven tech like ABP, plus 150 mm of rear ... Remedy C is a tough full-carbon all-mountain frame that's burly enough for the roughest lines, and light enough to make that next climb seem a little shorter. Remedy 8 hits the sweet spot in all-mountain performance and value. Fuel EX is fast on singletrack, capable in the rough, and fun wherever you ride it. A 2024 Trek Remedy 27.5 C Frameset is typically priced around \$3,799 USD when new. Due to supply chain issues, compatible parts may be substituted at any time without notice. The 2024 Trek Remedy AL Frameset has 27.5" wheels. Trek's exclusive Active Braking Pivot keeps your suspension active while you're braking (which is when you need it most). Overall, the experience I have received has left me feeling bitter and unhappy, not the way a customer spending over £5k should feel. If you're gonna get just one mountain bike, make it this one. It's snappy, responsive, and accelerates like a rocket ship." Read more There might be similar bikes out there, but Trek's suspension is worth paying for. Just right for aggressive trail riding. Their approach to customer satisfaction is appalling, if I heard it once I heard several times "it's our procedure" " we are sorry" " there is nothing more we can do" !! Incidents and accidents happen, what defines a company is how they respond when things go wrong. The sum of the parts adds up to a greaty refined bike, but perhaps the biggest story is the increased value.! Read more "Overnight, the Remedy has become our new favorite test bike in the quiver. Be sure to shop around for the best price, and also look to the used market for a great deal. It's designed for 27.5" wheels and riders who like to party on the descents. It has sections which can be inserted depending upon the item and its size. They have parts from hundreds of different manufacturers, come in... Read More United States / English { { \$t(header.link.login) } } See the bikes Watch the full film Remedy is a hard-charging trail bike for technical terrain and rowdy descents. It keeps you confident and composed even when you're charging the sketchiest lines—and that's thanks to trail tech designed to keep you in control when your line's a bit unwieldy. "I was blown away at how stiff the new Remedy is. There is no talking to the warranty department, they make mistakes, fail to reply to emails, but as a consumer the option left open to me was to leave a bad review. It sports 27.5" wheels, is priced at €2,499 EUR and comes in a range of sizes, including 15.5"" High, 15.5" Low, 17.5" High, 17.5" Low, 18.5" High, 18.5" Low, 19.5" High, 19.5" Low, 21.5" High, 21.5" Low. It's the mountain biker's mountain bike, built with a 160mm fork and 150mm of rear travel, snappy 27.5" wheels, and all the stoke-worthy features that make it perfect for hitting jumps, roosting corners, and throwing down on the trail. A 2024 Trek Remedy AL Frameset is typically priced around €2,499 EUR when new. Plus, they make the bike easier to throw around, which is key when you're charging steep lines with jumps or whipping through the rough stuff. The boxes are not strong enough. The 2024 Trek Remedy AL Frameset may be purchased directly from Trek. Just feels like you one box for bikes, and while that may be suitable for lighter, cheaper bikes it was not sufficient for a heavy embt. The 2024 Trek Remedy 27.5 C Frameset has 27.5" wheels. This stout trail bike frame has 150 mm of travel and a FOX DPX2 shock that keeps up ... Remedy is a hard-charging trail bike for technical terrain and rowdy descents. It's the mountain biker's mountain bike, built with a 160mm fork and 150mm of rear travel, snappy 27.5" wheels, ...
