Ä T Windows: Click the right mouse button in the .ttf or .otf file and select Install.Next easy: Go to Start > Control Panel > Fonts. Rooting your device may void the warranty and cause hardware malfunctions. For guidance on how to extract, or unpack, a file .zip, see Zip Files: Unzip them with the Right Software. Before you try to root, make a backup of your important data using an application like Helium. Once you have added a source to your operating system and ensured its compatibility with Word, you should then be able to use it in any MS Office application including Microsoft Excel and PowerPoint. Fonts can only be incorporated into the Windows version of Word, and the specific font should allow embedding. Touch it, and then touch the big Äa cone. Let's learn how to install a font in Windows so we can add it to Word. Installing a source in Windows is the same© from Windows 10 to© Windows 7. Now close FX File Explorer, locate the MS Word application, and keep your finger on the file button to make a menu appear. You may have to decompress the file first. From the iOS menu, tap Open and select Import with Any Source. Some fonts are free while others must be purchased. In another window, drag the .ttf or .otf to the font folder that you just opened. For Word for Mac, double-click the font file to© open a preview of > font. Drag the desired font into the font folder of your system. Unfortunately, adding fonts to the latest version of MS Word for Android is© much more difficult than it used to be. You will briefly see a progress window of the installation as it installs. Paste the source file into the font directory by tapping the "I copied" cone in the upper right corner of your image and selecting Paste to From the menu that appears. Check the list of Microsoft sources supported by each MS Office version to determine which fontes you can have to incorporate. You can install any font file on any operating system. If the source does not start installing immediately, tap Install the following next ot seog yllacipyt ti .tnof a daolnwod uoy nehW .ecived rieht no dellatsni tnof taht sah ohw resu yna rof ylireporp yalpsid dna xob snoitpo tnof eht ni raeppla lliw eman tnof eht .tnemucod eht evas uoy nehW .redlof sdaolnwod ruoy ni ylbaborp si elif eht neht .etisbew a morf tnof eht dedaolnwod uoy fi .seY .ecived s'resu eht no dellatsni era yeht fi droW ni ylireporp yalpsid ylno lliw stnoF .elif piz a morf ti tcartxe ot evah yam uoy .elif fto. ro ftt. a ees t'nod uoy fi .wodniw weiverp tnof eht nepo ot ti kcilelbuod dna elif tnof ruoy etacol :kooB tnoF eht .SOcam no stnof gniganam rof ppa eht ot meht dda tsum uoy .caM no stnof droW tfosorciM wen esu nac uoy erofeB .llatsni ot tnaw uoy tnof eht dnif .wodniw rehtona ni .yllaudividni eno hcae llatsni tsum uoy .tnof a fo snoitÄrav elpitlum sniatnoc elif piz .a fi .kooB tnoF eht fo rabedis tfel eht ni dnuof eb nac hcihw .noitcelloc elbitapmoc eciffo swodniW eht otni elif tnof eht pord dna gard osla tsum uoy neht .caM rof eciffo fo noisrev 1102 eht gnisu er'uoy fi .droW SM ni noitpo na sa raeppla won lliw tnof eht f'lexE dna tnoFrewoP gniiduicni spaa rehto tsum dna droW ni elbaliava eb dluohs tnof eht .caM ruoy gnitratser rettÄ .duolCi ruoy otni elif tnof derised eht evaM .snoitpo tnof eht ni detsil tnof ruoy ees dluohs uoy .droW SM tratser uoy nehW .stnof debme uoy tel t'nsesod enilnO droW .yletanuotniU .SOi dna .diordnÄ .SOcam .7 dna .8 .01 swodniW rof llew sa 1102 ot kcab gniog droW fo noisrev lla ot ylppa elcitra siht ni snoitcurtsni .neerCS ruoy fo renroc thgir reppu eht ni sispille eht pat neht dna .elif tnof eht pat .duolCi morF .xob snoitpo tnof eht otni eman s'tnof ruoy epyt dna resworb bew uoy ni 563 eciffo nepO .reweiverp tnof eht ni raeppla lliw ti .elif tnof uoy kcilelbuod uoy nehW !yhw su lleT !wonk su gnittef rof sknahT .kooB tnoF eht nepo dluohs hcihw .wodniw weiverp tnof eht fo mottob eht raen tnoF llatsni kcilC .snoitcurtsni eht wollof dna sraeppla taht .elif .elif tnof ruoy etacol dna rerolpxE elif XF nepO .yllacitamotua llatsni dluohs ti .redlof tcerroc eht ni si tnof eht ecnO .no-dda toor eht llatsni dna rerolpxE elif XF daolnwod .ecived diordnÄ detoor ruoy htiW .ti ypic dna tnof ruoy etacol ot ppa rerolpxE elif XF eht esU ".deipoc 1" syas taht renroc thgir reppu eht ni noci wen a ees ll'uoy .lufsseccus fi .llatsni ot syaw 2 era erehT .tsil tnof eht ni noitpo na sa raeppla dluohs tnof wen eht .droW nepo uoy emit txen ehT .metsys ruoy no dellatsni tnof yna fo esu ekam nac uoy .563 tfosorciM fo trap sa ppa enilnO droW tfosorciM eht gnisu er'uoy fi .esiwrehto yficeps uoy sselnu redlof sdaolnwod s'metsys
