Read more 18 July, 2025 | Edward Sheldon, CFA Looking to build a second income from property but dont have the capital for a buy-to-let? Check out REITs, says Read more When investing, your capital is at risk. The value of your investments can go down as well as up and you may get back less than you put in.Tax treatment depends on your individual circumstances and may be subject to future change. The content of this article is provided for information purposes only and is not intended to be, nor does it constitute, any form of personal advice.Read More Investments in a currency other than sterling are exposed to currency exchange risk. Currency exchange rates are constantly changing, which may affect the value of the investment in sterling terms. You could lose money in sterling even if the stock price rises in the currency of origin. Stocks listed on overseas exchanges may be subject to additional dealing and exchange rate charges, and may have other tax implications, and may not provide the same, or any, regulatory protection as in the UK.
