This teaching bundle covers Shirley Jackson's short story "The Lottery" with a multiple-choice quiz, short answer option, and various accompanying activities. The materials are delivered in both Word Document and PDF formats for flexibility. By using this bundle, students will develop essential skills such as character analysis, plot comprehension, vocabulary development, and critical thinking. The ENG2D course assessment provides an alternative format for evaluating students' understanding of literary concepts, specifically focusing on short stories and multiple choice reading comprehension questions. The resource includes various types of questions that test skills such as identifying themes, analyzing character development, and recognizing literary devices like foreshadowing and irony. An answer key is included to facilitate grading, and the story itself is easily accessible online for students who need it.
