The best recipe for happiness and contentment I've seen is this: dig a big hole in the garden of your thoughts and put into it all your disillusions, disappointments, regrets, worries, troubles, doubts, and fears. Cover well with the earth of fruitfulness. Water it from the well of contentment
Sow on top the seeds of hope, courage, strength, patience, and love. Then when the time for gathering comes in can'ts. Page 12 Page 13 When I discipline myself to eat properly, live morally, exercise regularly, grow mentally and spiritually, and not put any

In fact, if U and I were not in
business, it would not be business. Furthermore, we discover that U comes before I in business and the I is silent-it is to be seen, not heard. Also, the U in business has the sound of I, which indicates it is an amalgamation of the interests of U and I. When they are properly amalgamated, business becomes harmonious, profitable, and pleasant. Page 15

When you pay too much, you lose a little money, that is all. When
you pay too little, you sometimes lose everything because the thing you bought was incapable of doing what it was bought to do. The common law of business balance prohibits paying a little and getting a lot . ." — Zig Ziglar, Secrets of Closing the Sale "If you do not believe in your product or service enough to offer it to your own family and friends,
then you should question the value of what you are selling." — Zig Ziglar, Secrets of Closing the Sale All Quotes Quotes By Zig Ziglar You can have everything in life you wantif you will just help enough other people to get what they want. Zig Ziglar describes
and gives examples for some of the best way to persuade anyone to buy something from you — the keys are belief in your product, voice inflections. Break the price into small segments. Optimitstically sell, and be hard of
hearing. Ask questions to identify the problem and lead the prospect to the decision. Find out what he needs to solve his problem, and show him how he can solve his problem with your product. The below is nowhere near to a comprehensive summary — but just a few core principles which I wanted to capture so I don't forget them. Some of your best
prospects say they are not interested, even though they know they want or need your product, but think they are not in the position to buy right nowOwnership CloseIt's all about framing"And just look at your fireplace with all those bookshelves around it for your books"Don't hear everythingMost salespeople need to be a little hard of hearing when
might well be making a mistake. Had we just waited 20 years, we could truly have had a honeymoons! When we started our family, it was a mistake. It did — and does — cost money. Had we waited just another ten or fifteen years, we could have given the children so much more....If you wait until all lights are green before you
head into town, you're going to stay at home for the rest of your life. Alternate of Choice CloseWould you like to take it with you or should we send it out? Conviction The prospect is persuaded more by the depth of your prospect's
attention. That's important, because if he isn't listening, he won't get the message and information necessary to make the yes decision. You Justify or He Defends "This is ridiculous!" "This is ridiculous!" "This is ridiculous!" to make the yes decision. You Justify or He Defends "This is ridiculous!" to make the yes decision. ridiculous - you will get to the bottom of the underlying issue. Cost Close "Are you concerned about the Price or the Cost?" Price is what you pay, cost is what the lifetime of the product will cost you if you buy it. Crappy product, lots of maintenance, malfunction, nerves, etc way bigger cost. Quality Close Many years ago our company made a decision
We decided that it would be easier to explain price one time, than it would be to apologise for quality forever. The Heart of your Sales Career Believers are Closers! If you don't believe the customers are the losers when they don't buy, you are selling the wrong product. Empathy vs Sympathy Sympathy means you feel like another person feels. Empathy
means you understand how the other person feels, though you do not feel the same way. Be empathetic! Understand how the prospect feels, back away from the problem and able to offer a solution. The Sales ProfessionalIf they stood you up before, they could not say 'No' to you in person — so you've got the sale in your hand now. Impossible Child

Training Techniques and Commands Effective training hinges on clear communication and positive reinforcement. Discover proven methods to teach essential commands, build a strong bond, and shape your puppy into
a well-mannered and obedient companion through structured training. Basic Obedience: Sit, Stay, Come Establishing a foundation of basic obedience is crucial for a well-behaved puppy. Start with "Sit" by luring your puppy with a treat, guiding their rear to the ground, and saying "Sit." Reward immediately! For "Stay," have your puppy sit, say
 "Stay," and gradually increase the duration. "Come" is taught by using an enthusiastic tone, calling your puppy's name, and rewarding them generously when they approach. Consistency and patience are key to success. Keep training sessions short and positive, ending on a good note. Remember to use high-value treats and plenty of praise to
motivate your puppy and reinforce these essential commands. As Himiko shows, the perfect puppy is achievable with consistent training! Reward-Based Training: Positive Reinforcement is the cornerstone of effective puppy training. Focus on rewarding desired behaviors with treats, praise, or toys. When your puppy
performs a command correctly, immediately offer a reward to create a positive association. This method encourages your puppy to repeat the desired action. Avoid punishment, as it can create fear and anxiety. Instead, redirect unwanted behaviors to more appropriate ones. Understand what motivates your puppy - is it food, toys, or affection? Tailor
your rewards to their preferences. Consistency is key; ensure everyone in the household uses the same commands and reward system. This approach, combined with socialization and prevention, will result in a happier, well-adjusted puppy. Troubleshooting Common Puppy Problems Navigate puppyhood's challenges with expert solutions. Address
biting, separation anxiety, and more with proven techniques for a harmonious home. Learn to understand your puppy's behavior and implement effective strategies. Dealing with Biting and Nipping Puppy biting and nipping are common behaviors that require patience and consistent training. Redirect your puppy's attention to appropriate chew toys
when they start to nip. Implement a "time-out" strategy by briefly ignoring your puppy when they bite too hard, teaching them that biting leads to the end of playtime. Ensure your puppy has plenty of opportunities for play and exercise to reduce pent-up energy that may contribute to nipping. Socialization is also crucial, as it helps your puppy learn
appropriate interaction with people and other animals. Consistency is key; everyone in the family should use the same techniques. If problems persist, consult with a professional dog trainer. Addressing Separation Anxiety Separation 
address this, gradually accustom your puppy to periods of solitude, starting with just a few minutes and slowly increasing the duration. Create a safe and comfortable space for your puppy, such as a crate, with familiar toys and bedding to foster positive associations with being alone. Avoid making a big fuss when leaving or returning; keep greetings
calm and low-key. Consider leaving a recently worn t-shirt with your scent to provide comfort. If separation anxiety persists, consult a veterinarian or certified dog trainer for guidance and potential interventions. Maintaining Consistency is key to ensuring long-term success. Regularly reinforce learned commands
and adapt the training schedule to your puppy's evolving needs. Consistent review and reinforcement of learned commands are crucial for solidifying your puppy's understanding and obedience
Dedicate short, daily sessions to revisit commands such as "sit," "stay," and "come," using positive reinforcement techniques like treats and praise. Vary the environments where you practice these commands to ensure your puppy's focus and reinforce their
training amidst real-world stimuli. Regularly assess your puppy's progress, addressing any areas where they may be struggling. Consistent practice solidifies good habits and strengthens the bond between you and your puppy's Needs The "Perfect Puppy in 7 Days" schedule
serves as a foundational guideline; however, flexibility is essential to accommodate your puppy's individual needs and evolving development. Observe your puppy's energy levels, appetite, and learning pace, adjusting playtime, feeding times, and training sessions accordingly. Some puppies may require more frequent potty breaks, while others might
benefit from shorter, more focused training periods. As your puppy grows, their needs will change. Modify the schedule to incorporate longer walks, more challenging training exercises, and increased socialization opportunities. Regularly assess your puppy's progress and make necessary adjustments to ensure the schedule remains effective and

Themes and Iconography "My Favorite Thing Is
Monsters" explores themes of identity, trauma, and morality through a lens of monster imagery. The graphic novel is filled with iconography from B-movie Horror and Pulp Monster Magazines The visual and thematic landscape of "My Favorite Thing Is
Monsters" is heavily influenced by B-movie horror and pulp monster magazines. Emil Ferris expertly weaves this iconography into the narrative, reflecting Karen Reyes's worldview and fascination with the monstrous. Karen identifies with these creatures, seeing them as outsiders and misunderstood beings, mirroring her own feelings of alienation
The graphic novel's artwork mimics the style of vintage horror comics, complete with cross-hatching, vibrant colors, and exaggerated features. This aesthetic choice not only establishes the setting in 1960s Chicago but also reinforces the themes of fear, otherness, and the blurred lines between good and evil. The monsters are not simply figures of
terror but also symbols of hidden truths and repressed emotions. Through these visual cues, Ferris creates a world where the grotesque and the beautiful coexist, inviting readers to question their own perceptions of what is considered monstrous. B-movie horror and pulp magazines serve as a gateway into exploring deeper issues of identity,
prejudice, and the search for understanding in a world filled with darkness. They are metaphors for life. Holocaust History and its Impact "My Favorite Thing Is Monsters" delves into the profound impact of Holocaust history through the character of Anka Silverberg, Karen's upstairs neighbor and a Holocaust survivor. Anka's experiences in Nazi
Germany cast a long shadow over the narrative, exploring themes of trauma, memory, and the enduring consequences of hatred and violence. Her story is interwoven with Karen's investigation, highlighting the interconnectedness of personal and historical narratives. The graphic novel confronts the complexities of the Holocaust, portraying its effects
on individuals and communities. Anka's struggles with her past, her sense of loss, and her search for meaning resonate throughout the story. Through her character, Ferris explores the challenges of bearing witness to unimaginable atrocities and the importance of remembering and learning from history. The inclusion of Holocaust history adds depth
and gravity to the narrative, prompting readers to reflect on the dangers of prejudice, the resilience of the human spirit, and the responsibility to confront injustice. It underscores the idea that the past is never truly gone, and its echoes can shape the present in profound ways. It shows pain. Character Analysis: Karen Reyes Karen Reyes, the
protagonist of "My Favorite Thing Is Monsters," is a compelling and complex character whose unique perspective drives the narrative. A ten-year-old girl who identifies with monsters, Karen uses her outsider status to observe and interpret the world around her. Her graphic diary serves as a window into her thoughts, fears, and aspirations, revealing
a precocious and imaginative mind. Karen's fascination with monsters is not merely a childish affectation; it is a way for her to grapple with the darkness and complexities of the adult world. She sees monsters as metaphors for the hidden truths and repressed emotions that lie beneath the surface of society. Her investigation into the murder of Anka
Silverberg becomes a journey of self-discovery, as she confronts her own demons and learns to navigate the complexities of human relationships. Through Karen, Ferris explores themes of identity, otherness, and the power of imagination. Karen's vulnerability and resilience make her a relatable and endearing character, even as she grapples with
difficult and disturbing realities. Her journey is a testament to the strength of the human spirit and the importance of embracing one's unique perspective.
