Dollar General about six months ago after the c-store chain he worked for closed. After learning Randy didn't have a drivers' license due to not having a copy of his birth certificate, District Manager Rodney Q. stepped in to help - offering to drive him to get it and searching online to apply for a copy. The day Randy received his certificate he took and
passed his drivers' test. "I was standing in the parking lot when his wife picked him up. I told her how proud I was of him. She said she's always been proud of him and that his new opportunity would be life changing for them." Rodney shared that Randy works hard and volunteers every time someone needs help, and his efforts yielded a recent
promotion to store manager. headquartered in Goodlettsville, Tennessee. As of January 8, 2024, Dollar General operated 19,643 stores[1][2] in the contiguous United States and Mexico.[5][10][11] The company began in 1939 in Scottsville, Kentucky, as a family-owned business called J.L. Turner and Son, owned by James Luther Turner and Cal Turner. In 1955, the name changed
to Dollar General Corporation, and in 1968 the company went public on the New York Stock Exchange. The Fortune 500 recognized Dollar General in 1999, and in 2020 it reached #112 on the list.[12] Dollar General has grown to become one of the most profitable stores in the rural United States, with revenue reaching around $27 billion in 2019.[13]
The company and its business practices have been subject to criticism, particularly regarding how it may be creating fewer and lower-paying jobs. [14][15][16] J.L. Turner and Son Building in Scottsville, Kentucky Dollar General has its origin in Scottsville, Kentucky, with James
Luther "J.L." Turner and his son Cal Turner. James Turner's father died in an accident in 1902 when James was only 11. James quit school to work on the family farm, helping to provide for his mother and siblings, and subsequently never completed his education. After two unsuccessful attempts at retailing, James became a traveling dry goods
salesman for a Nashville wholesale grocer. James left the sales job after 10 years and settled his family in Scottsville, Kentucky. During the Great Depression, he began buying and liquidating bankrupt general stores. Cal accompanied his father to these closeouts at a young age, gaining valuable business knowledge and skills.[17] In October 1939,
James and Cal opened J.L. Turner and Son with an initial investment of $5,000 each (equivalent to $113,000 in 2024). The switch to retailing resulted in annual sales above $2 million by the early 1950s. By the mid-1950s Turner had 35 department stores in Kentucky and Tennessee. In 1955, Cal Turner developed his idea of a retail store selling goods
for a dollar, based on the Dollar Days promotions held at other department stores, by converting Turner to succeed him.[19] The company Cal Turner co-founded went public as Dollar General Corporation in 1968,
[20] posting annual sales of more than $40 million and net income in excess of $1.5 million. In 1977, Cal Turner Jr., who joined the company in 1965 as a third-generation Turner, succeeded his father as CEO of Dollar General. [21] In 1989, Cal Sr. retired as chairman and the company headquarters were moved to Tennessee. [18] Under his son's
leadership, the company grew to more than 6,000 stores and $6 billion in sales. In 1997 a distribution center was established in South Boston, Virginia.[22] In 2000, Dollar General exceeded $4 billion.[23] The distribution center in
Homerville, Georgia, was closed in April 2000 and operations were moved to a new distribution center in Alachua, Florida.[24] Cal Jr. retired in 2002 and was succeeded by David Perdue on April 2, 2003.[26] In 2004, Dollar General expanded to
low-cost Asian markets by opening a sourcing office in Hong Kong.[27] On June 21, 2007, CEO David Perdue announced his resignation, leaving David Bere as interim CEO.[28] One month later, all shares of Dollar General stock were acquired by private equity investors for $22 per share. An investment group consisting of affiliates of Kohlberg Kravis
Roberts (KKR), GS Capital Partners (an affiliate of Goldman Sachs), Citigroup Private Equity, and other co-investors completed an acquisition to a privately held company, Dollar General assessed each location at the end of its lease against a model known as "EZ Stores". This
assessment included evaluating whether the location had a loading dock, garbage dumpsters, adequate parking, and acceptable profitability. Stores that did not pass this evaluation were relocated or closed. Over 400 stores were closed as part of this initiative.[30] Construction of a Dollar General store in Lowndes County, Georgia, in 2015 Dollar

[36] Dollar General's 13th distribution center opened in San Antonio, Texas, on June 6, 2016, with a local investment of $100 million and the creation of over 500 jobs. [37] In September 2015, the City
Council in Janesville, Wisconsin, approved an agreement to bring a Dollar General distribution center to the town. The center created more than 500 jobs in the area and became the 14th Dollar General distribution center. [38] An Alachua, Florida Dollar General distribution center in 2018 On September 15, 2016, Dollar General announced plans to
hire 10,000 new employees and open 900 new stores in fiscal 2016 and 1,000 in fiscal 2017. Dollar General opened a concept store in Nashville, Tennessee, called DGX. The DGX store concept focuses on urban shoppers and is geared toward instant-consumption services
such as coffee stations and soda fountains. The following month another DGX store opened in Raleigh, North Carolina, and in September a third DGX opened in Philadelphia, Pennsylvania.[40] As of May 2020, Dollar General operated 12 DGX locations in nine states.[8] A popshelf store in Mishawaka, Indiana In Jackson, Georgia, Dollar General
opened its 15th distribution center in fall 2017 to serve stores in Georgia and the surrounding states.[41] In 2017, Dollar General began construction for its 16th distribution center, in Amsterdam, New York. The distribution center was to cost $91 million and was expected to create 400 jobs in Montgomery County, New York.[42] Dollar General
planned to open 900 new stores in 2018.[43] The distribution center became fully operational in 2019.[44] Also in 2017, Dollar General acquired stores from Dollar Express, a spinoff from the Family Dollar-Dollar Tree deal, and converted the store.[45][46] In September 2019, Dollar General celebrated the grand opening of its 16,000th store, in
Panama City, Florida, following damage sustained from Hurricane Michael in October 2018. To commemorate the opening, Dollar General presented two $16,000 checks in partnership with Kellogg's to two local elementary schools displaced from the hurricane. [47] On December 5, 2019, Dollar General announced plans for fiscal 2020 that included
the opening of 1,000 new stores, remodeling of 1,500 mature stores, and relocation of 80 stores.[48] In February 2020, Dollar General announced plans to create 8,000 net new career opportunities in fiscal year 2020.[49] Dollar General expanded to 46 states in 2020 with the addition of new stores in Wyoming[50] in March and Washington in April.

Dollar store chains, in "capitalizing on a series of powerful economic and social forces—white flight, the recent recession, the so-called "retail apocalypse"—all of which have opened up gaping holes in food access...might not be causing these inequalities per se, they appear
to be perpetuating them". The rapid growth in dollar stores across the US has created food deserts and a "dollar stores across the US has created food deserts and a "dollar stores left". After originally granting them local tax incentives, a number of municipalities have been adding zoning bylaws to discourage dollar stores. [86] [citation needed]) According to a study done by the Institute for Local Self-Reliance
dollar stores tend to create fewer and lower-wage jobs than independent grocery stores.[14][85] The report claims that dollar stores stifle local competition, thereby hurting the communities they are serving.[87] In March 2020, Dollar General announced plans for its 2020 fiscal year to begin offering produce assortments at approximately 400 stores
in addition to the 650 stores that already did so. In February 2019, the University of Nevada, Las Vegas, published a story which found that the quality of fruits and vegetables at dollar stores is just as good as at regular grocery stores. [16] On April 30, 2001, Dollar General Corp was judged liable for making false statements or failing to disclose
adverse facts about the company's financial results, [88] and paid $162 million for settlement. The company also announced a restatement of its earnings for the previous three fiscal years, due to accounting irregularities including allegations of fraudulent behavior. The statement from OSHA noted that Dollar General had had repeated health and safety
violations: "Since 2009, OSHA has conducted 72 inspections of Dollar General nationwide. Of those inspections, 39 have resulted in citations."[91] In April 2016, OSHA reported that further citations had been given to the store was fined
$107,620.[92] In December 2016, OSHA noted that some Dollar General stores in 2022 in Pembroke in February, and Hogansville and Smyrna[clarification needed] in March, identified four willful and
seven repeat violations. Specifically, OSHA cited the company for failing to keep receiving areas clean and orderly and for stacking materials in an unsafe manner. These hazards exposed workers to slips, trips, and being struck by objects. OSHA also issued citations for exposing workers to fire and entrapment hazards by failing to keep exit routes
and electrical panels clear and unobstructed.[94] Dollar General's pattern of disregarding worker safety was apparent at five other Southeast locations in Mobile, Alabama, and one in Dalton, Georgia, found similar hazards. At another Mobile location, a
December 2021 inspection led OSHA to propose $321,827 in penalties for exposing workers to slip and trip hazards and not keeping the main storeroom orderly to allow a safe exit during an emergency.[94] In March 2023 it was reported that Dollar General

Dollar General was fined $1.75 million by the state of Vermont over pricing irregularities for charging a higher price for products at the register than was advertised at the shelf.[97] During 2022, the State of Ohio brought a lawsuit for deceptive pricing. and the highest-ranking officer in the C-suite.[2] The term "chief executive officer" is attested as early as 1782, when an ordinance of the Confederation of the Confederation of the United States of America used the term to refer to governors and other leaders of the executive branches of each of the Thirteen Colonies.[3] In draft additions to the Oxford
English Dictionary published online in 2011, the Dictionary says that the use of "CEO" as an acronym for a chief executive officer originated in Australia, with the first attestation being in 1914. The first American usage cited is from 1972.[4] The responsibilities of an organization's CEO are set by the organization's board of directors or other
authority, depending on the organization's structure. They can be far-reaching or quite limited, and are typically enshrined in a formal delegation of authority regarding business administration. Typically, responsibilities include being an active decision-maker on business strategy and other key policy issues, as well as leader, manager, and executor
roles. The communicator role can involve speaking to the press and the public, as well as to the organization's management and employees. The decision-making role entails making high-level decisions regarding policy and strategy. The CEO is responsible for implementing the goals, targets, and strategic objectives as determined by the board of
directors. As an executive officer of the company, the CEO reports the status of the business to the board of directors, motivates employees, and drives change within the organization. As a manager, the CEO reports the status of the business to the board of directors, motivates employees, and drives change within the organization. decisions, including those in operations, marketing, business development, finance, human resources, etc. The CEO of a political party is often entrusted with fundraising, particularly for election campaigns. The use of the CEO title may be used by for-profit companies or non-profit or charitable organisations, such as the Wikimedia Foundation. In
some countries, there is a dual board system with two separate boards, one executive board for control purposes (selected by the shareholders). In these countries, the CEO presides over the executive board for control purposes (selected by the shareholders).
be held by different people. This ensures a distinction between management by the executive board and governance by the supervisory board. This allows for clear lines of authority. The aim is to prevent a conflict of interest and too much power being concentrated in the hands of one person. In the United States, the board of directors (elected by the
shareholders) is often equivalent to the supervisory board, while the executive committee (the division/subsidiary heads and C-level officers are usually the top officers are usually the top

is a managing partner, senior partner, or administrative partner, or administrative partner. In the case of a limited liability company, an executive officer is any member, manager, or officer. Main article: Corporate title Depending on the organization, a CEO may have several subordinate executives to help run the day-to-day administration of the company, each of whom has
specific functional responsibilities referred to as senior executives, [8] executive officers or corporate officers. Subordinate executive, if the CEO is also the president, is the vice president (VP). An organization may have more than one vice

public relations-focused position of chief reputation officer is sometimes included as one such subordinate executive officer, but, as suggested by Anthony Johndrow, CEO of Reputation Economy Advisors, it can also be seen as "simply another way to add emphasis to the role of a modern-day CEO - where they are both the external face of, and the
driving force behind, an organization culture".[9] Brad D. Smith, former CEO of Intuit In the US, the term "executive director" is used primarily in business, whereas the term executive director is used primarily in the not-for-profit sector.[10] These terms are generally mutually exclusive and refer to distinct legal duties and responsibilities.[11]
The CEO is the highest-ranking executive in a company, making corporate decisions, managing operations, allocating resources, and serving as the main point of communication between the board of directors and the company. [12] In the UK, chief executive and chief executive officer are used in local government, where their position in law is
described as the "head of paid service",[13] and in business and in the charitable sector.[14] As of 2013[update], the use of the term director for senior charity director or trustee, which are normally non-executive (unpaid) roles. The term
managing director is often used in lieu of chief executive officer. Business publicists since the days of Edward Bernays (1891-1995) and his client John D. Rockefeller (1839-1937) and even more successfully the corporate publicists for Henry Ford, promoted the concept of the "celebrity CEO". Business journalists have often adopted this approach,
which assumes that the corporate achievements, especially in the arena of manufacturing, are produced by uniquely talented individuals, especially the "heroic CEO". In effect, journalists celebrate a CEO who takes distinctive strategic actions. The model is the celebrate a CEO who takes distinctive strategic actions. The model is the celebrate a CEO who takes distinctive strategic actions.
et al. argues that "...these individuals are not self-made, but rather are created by a process of widespread media exposure to the point that their actions, personalities, and even private lives function symbolically to represent significant dynamics and tensions prevalent in the contemporary business atmosphere".[15] Journalism thereby exaggerates
the importance of the CEO and tends to neglect harder-to-describe broader corporate factors. There is little attention to the intricately organized technical bureaucracy that actually does the work. Hubris sets in when the CEO internalizes the celebrity and becomes excessively self-confident in making complex decisions. There may be an emphasis on
the sort of decisions that attract the celebrity journalists.[16] Research published in 2009 by Ulrike Malmendier and Geoffrey Tate indicates that "firms with award-winning CEOs subsequently underperform, in terms both of stock and of operating performance".[17] Main article: Executive compensation § Controversy Executive compensation has
been a source of criticism following a dramatic rise in pay relative to the average worker's wage. For example, the relative pay differs around the world, and, in some smaller countries, is still around 20-to-1.[19] Observers differ as to whether the rise is due to
competition for talent or due to lack of control by compensation committees. [20] In recent years, investors have demanded more say over executive pay. phallogocentrism, the existence of old boy networks, tradition, and the lack of female role models in that regard. [25][26][27] Some countries have passed laws mandating boardroom gender quotas. [28] In 2023 Rockefeller Foundation awarded a grant to Korn Ferry to research strategies and then action a plan to help more women to become CEO's.
[29] See also: Toxic leader There are contentious claims that a significant number of CEO's have psychopathic tendencies, often characterized by power-seeking behavior and dominance. These individuals can often conceal their ruthlessness and antisocial behavior behind a facade of charm and eloquence. Traits such as courage and risk-taking,
generally considered desirable, are often found alongside these psychopathic traits thrive in chaotic environments and are aware that others do not. As a result, they may intentionally create chaos in the workplace.[30][31]
This perspective is explored in the book Snakes in Suits, co-authored by Robert D. Hare. However, Scott Lilienfeld has argued that the attention given to psychopathy in the workplace by both the media and scholars has far exceeded the available scientific evidence. Emilia Bunea, writing in Psychology Today, has linked psychopathic traits in
managers to workplace bullying, employee dissatisfaction, and turnover intentions. Despite this, Bunea cautions that excessive worry about supposed psychopathic managers could discourage individuals from pursuing careers in corporations and deter employees from addressing issues with difficult bosses.[32] CEO succession CEO of public schools
