I have bike shops closer to me, but it's worth the 40-minute drive for the service I receive. Repairs are done right, the employees are honest, and the prices are affordable. Most recently, I had my bike in for a shot wheel, and Chris turned the entire bike around in about 36 hours. Wheel was replaced, and they even threw in complimentary checks/adjustments on my brakes, headset, chain, etc. I'm so thankful I came to Trek! Bike is good as new!- Alec M. Cyclists can still find all the brands they know and love, such as Shimano, Genesis, Park Tool, Elite, PEARL IZUMI and many more, while supporting the people that keep the sport alive at the same time.So the message is clear, please use freewheel.co.uk , nominate your local store & support your local store while buying online, now theres something we never thought we would say.
