The term chairman may be used in a neutral manner, not directly implying the gender of the holder. [17][18] The Oxford Dictionary of American Usage and Style (2000) suggested that the gender-neutral forms were gaining ground; it advocated chair for both men and women. [19] The Daily Telegraph's style guide bans the use of chair and chairperson; the newspaper's position, as of 2018, is that "chairman

 maintain the presiding officer's impartiality and to ensure an objective and impersonal approach.[7][24] In the British music hall tradition, the chairman was the master of ceremonies who announced the performances and was responsible for controlling any rowdy elements in the audience. The role was popularised on British TV in the 1960s and
1970s by Leonard Sachs, the chairman on the variety show The Good Old Days.[25] "Chairman" as a quasi-title gained particular resonance when socialist states from 1917 onwards shunned more traditional leadership labels and stressed the collective control of Soviets (councils or committees) by beginning to refer to executive figureheads as
 "Chairman of the X Committee". Lenin, for example, officially functioned as the head of Soviet Russian government not as prime minister or as president, but as "Chairman of the Central Executive Committee" (until 1938) and then
 addition to the administrative or executive duties in organizations, the chair presides over meetings. [28] Such duties at meetings include: Calling the meeting to order Determining if a quorum is present Announcing the rules of the
group Putting questions (motions) to a vote, which is the usual way of resolving disagreements following the rules of the group. [29] In committees or small boards, the chair votes
 along with the other members; in assemblies or larger boards, the chair should vote only when it can affect the result. [30] At a meeting, the chair only has one vote (i.e. the chair such authority). [31] The powers of the chair vary
widely across organizations. In some organizations. In some organizations they have the authority to hire staff and make financial decisions. In others they only make recommendations to a board of directors, or may have no executive powers, in which case they are mainly a spokesperson for the organization. The power given depends upon the type of organization, its
structure, and the rules it has created for itself. If the chair exceeds their authority, engages in misconduct, or fails to perform their duties, they may face disciplinary procedures. Such procedures may include censure, suspension, or removal from office. The rules of the organization would provide details on who can perform these disciplinary
procedures.[32] Usually, whoever appointed or elected the chair has the power to discipline them. There are three common types of chair in public corporations. The chief executive officer (CEO) may also hold the title of chair, in which case the board frequently names an independent member of the board as a lead independent director.[33] This
 position is equivalent to the position of président-directeur général in France.[citation needed] Executive chair is an office separate from that of CEO, where the titleholder wields influence over company operations, such as Larry Ellison of Oracle, Douglas Flint of HSBC and Steve Case of AOL Time Warner. In particular, the group chair of HSBC is
 considered the top position of that institution, outranking the chief executive, and is responsible for leading the board in 2006, HSBC's chair essentially held the duties of a chief executive at an equivalent institution, while HSBC's
chief executive served as the deputy. After the 2006 reorganization, the management cadre ran the business through compliance and audit and the direction of the business through compliance and audit and the direction of the business through compliance and audit and the direction of the business. [34][35][36] Non-executive chair is also a separate post from the CEO; unlike an executive chair, a non-executive chair does
not interfere in day-to-day company matters. Across the world, many companies have separated the roles of chair and CEO, saying that this move improves corporate governance. The non-executive chair's duties are typically limited to matters directly related to the board, such as:[37] Chairing the meetings of the board. Organizing and coordinating
the board's activities, such as by setting its annual agenda. Reviewing and evaluating the performance of the Ulriksdal Palace Theater. Many companies in the US have an executive chair; this method of organization

[40][41] The role of the chair in a private equity-backed board differs from the role in non-profit or publicly listed organizations in several ways, including the pay, role and what makes an effective private-equity chair. [42] Companies with both an executive chair and a CEO include Ford
[43] HSBC,[44] Alphabet Inc.,[45] and HP.[46] A vice- or deputy chair, subordinate to the chair is being discussed.[47] In the absence of the chair and vice-chair, groups sometimes elect a chair pro tempore to fill the role for a single
meeting.[48] In some organizations that have both titles, deputy chair ranks higher than vice-chairs but only a single deputy chair title on its own usually has only an advisory role and not an operational one (such as Ted Turner at Time Warner).[50] An unrelated definition of vice-

[...] Lenin, Stalin, Trotsky, Molotov and Abel Yenukidze [...] began discussing the structure of the new government. Lenin did not want to have 'ministers' as such, so Trotsky suggested that they should be called
 "peoples' commissars". The government itself would be the "Council of People's Commissars" and its chairman would be prime minister, in effect. SBN 978-1-135-75840-0. On 26 October 1917, Lenin announced the creation of the Council of People's
 Commissars, having rejected the traditional title of minister as being too "bourgeois", and named himself the "Chairman of the Council". ^ Robert 2011, p. 449 ^ Robert 2011, p. 449 . Robert 2011, p. 449 .
