ovilexsoftware Follow us on Youtube: OviLexSoft Follow us on Facebook: Policy - May 14, 2025 Version 7.2.0 New update for Bus Simulator: EVO!- Added a link to our Discord server!- Bug fixing and performance improvements!- More updates coming soon!Master the bus drive challenge! Take the wheel of your bus and drive to your favorite
locations! I absolutely love this game, because there is so much better than basically everything on the App Store. The graphics, and the thought out and it's nice that the interior wasn't skipped
over. The only thing I would like to see in the future, is making it may be a bit easier to earn money. Right now I only have about three buses and it has taken me a very, very very long time to make enough money to have three buses and it has taken me a very, very very long time to make enough money to have three buses and it has taken me a very, very very long time to make enough money to have three buses while I understand having a person on the game longer and having said person view more ads, makes more money I
would say that the amount of ads shown, and just in general the amount of time that it takes to earn money kind of makes me wonder off the other apps. so the maps are well made i feel that in freeride
we should be able to open doors and have the bus kneel and have door 1 and door 2 open options (and 3) and i also think that the buses on each map should be pretty accurate to the real things in the cities since I want the experience to be more real and i know this is a bus game but make some train options i dont know why but maybe having it can
be a little cool and i feel the Chicago map is a better version of the San Francisco map and also have more locations because we have very few options to choose from or to enter plus the buses line destination boards screen on the front and side of the buses should have some
options or let us type in something and last but not least i think y'all ha souls also a add a feature where you'd an let on wheelchairs or whatever like a little ramp and if yall dont know any of these htings sera h it up or something plus MAPS THE MAPS NEED TO BE ACCURATE THATS MY CONCERN and add those overhead wires everything I listed
pleas ei dont care if this takes 10 updates i would love this to happen yah thank you I never leave reviews for apps but here you go. I'll start with the pros. The game is really nice and I like playing it. I like that you can pick up passengers, I love that they all greet the driver. The turn signals, stopping at red lights, GPS system, it's all super realistic.
The only thing that's NOT realistic is the amount of terrible and annoying drivers. While yes, some drivers are absolutely horrible and probably shouldn't be driving but that's not every single driver. I also don't like how there are absolutely horrible and probably shouldn't be driving but that's not every single driver. I also don't like how there are absolutely horrible and probably shouldn't be driving but that's not every single driver.
the money you'll be making. That doesn't make any sense why is it there if we never have to refill it? And last but certainly not least, why the heck are the buses so expensive? Granted buses in real life are quite pricey but $200,000 for a coach bus? $82,000 for an electric bus? And even upgrading the diesel bus is super expensive. It's honestly
ridiculous. Saving up money is super hard especially when routes require certain buses, in which we don't have because we don't have enough money to get it, and it all circles back to the fact that they are all so expensive. Fix this issue and the game will be amazing. Get this articulated bus now! Get th

added to the game.- Temsa Maraton, Temsa Maraton, Temsa Marcopolo vehicles have been added to the game. Marcopolo Paradiso G7Thank you for playing our game. Yuks I really enjoy this game but I've only gotten to the second level due to one certain bug. Whenever you finish your route for the first level, it tells you
where to park and say park perfectly to let off the passengers but no matter how you park it just won't work. The only way I got past that was to close the game out and then click "continue route" right after. Now I have to do the same thing for the second level to let people on the bus. The second bug I noticed is the AI for the other cars, trucks,
busses, etc. The AI just really isn't good at all. The cars can barely even drive. I can't expect much from a mobile game but all I would like is for the cars to be a bit smarter. On another review, someone said that one of the vehicles just stopped in the middle of the road. Other than these few minor bugs, overall this is a great game! Excellent for a
mobile game as well! Thanks for reading and please fix these few things to make the game playable. Especially the parking bug. From a game developer, I'd keep the area where you have to park but don't make it where you have to park but don't make it where you have to park a certain way and how it has to be perfect. Even if that's the only thing you fix, that would make me happy and low it has to be perfect.
probably a lot of others too because then we can actually play the game. But anyways, amazing game! I like the gameplay a lot but there are a couple things that make me not want to play. You see I play this game when I bored. I would like you guys
to fix the accident glitches. The cars in the game don't know how to drive very well. In a matter of fact at all. The busses turn super hard in a not realistic way and when your next to them and they turn the back of the ai bus hits my bus. Then I lose points. Second the traffic lightest. They only last for like 5 seconds then they change and most of the
time my bus does not accelerate fast enough so the traffic light changes to red and I lose points. Thirdly. You guys should make it easier to get money in the game and I can't get new countries. Pretty much there's a lot of things that
need to change including the way the AI to drive in these traffic lights and there's a little bit more glitches. Besides that I like the game I would recommend it to my friends. Next update I ask if you guys can fix those glitches that will make me happy and maybe some of these people who play it. If you finish reading this thank you for making this game
for us to play and I hope that these glitches get fixed Stay safe. I really enjoy this game but I've only gotten to the second level due to one certain bug. Privacy practices may vary, for example, based on the features you use or your age. Learn More Developer Website App Support Privacy Policy Wanna find out what it's like to drive an actual bus? This article has you covered! There are plenty of bus simulator games for Android & iOS that proved you with a realistic gaming experience. These games
are usually based on actual maps, so you get a chance to explore the world. Plus, you'll get to try various bus models, have fun with an integrative first-person driver's cabin, and even get annoyed by lifelike traffic jams! We've gathered together the best games in that category you may try. Take a look! Let's start with the most downloadable bus
simulator on the market. If you're into realistic routes, real-life bus models, and a nicely-made graphic—this app is your cup of tea. It covers multiple routes among the US, Russia, Germany, Spain, France, and many more. Herewith, all the maps were precisely recreated from real-world maps, so no worries on the accuracy level here. The same goes
for buses and bus stations—everything is made with huge attention to detail. The game features plenty of bus models that you can switch and customize as needed. For instance, you get to repaint the bus and add new cool features for the passengers or your own comfort. There are over 20 models in general and more are yet to come. Another thing
that needs to be mentioned is a detailed cockpit view. The driver's cabin is made as lifelike as possible, and you'll get to interact with all the switches, buttons, and even the radio station. More to that, the game includes over 250 stations for you to try. The game also provides you with a changeable weather system and a traffic system that is as
annoying as a real-life one. You may also like: 11 Best Helicopter Simulator Games for Android & iOS Next, we have a bus sim that will teach you how to drive properly. In the case of this game, you will become a driver of a business bus that has to deliver people from one destination to another. Quite a smile task, but there are plenty of things that
will make it more complicated for you. First of all, people won't magically appear inside the bus (just like in a real lie). So in order to get them, you'll need to go to the terminal first. Once this part is one, it's time to follow the route via a built-in navigation system. The game comes with a 360-degree cockpit view, so you'll get the most realistic
experience ever. All the buttons and panels inside the cabin are fully interactive, so feel free to tap on everything that catches your eye. As for the vehicles, there are plenty of bus models that you can improve with time. Since the app is all about giving you a lifelike experience, the thing that will complicate your route is also included. For instance, the
weather may get bad, some mechanism inside the bus may break, and you may also get into terrible traffic. Bus Simulator is an exciting game that offers you to become a bus driver. In this game, each user will have to take the responsibility of transporting passengers on different routes in the city. Interactive maps of different cities are presented
here, allowing you to immerse yourself in the atmosphere of each of them. The app allows you to choose any of the presented buses, each of which has its own unique characteristic and appearance. You can customize the bus in different
weather conditions and at different times of the day. You will have to cope with the difficulties of traffic and skillfully maneuver among other vehicles. Here you will have to take a variety of routes around the city so that you can explore different neighborhoods. You will be able to use geolocation to move strictly on the route and observe all the traffic
rules. You will also have to complete different missions and tasks to get rewards and first places in the rankings. This is a bus-driving simulator game where you can try yourself as a professional city bus driver. Here you will be able to travel off-road, overcome difficult obstacles, and enjoy realistic graphics while driving. Gas and brake pedals,
steering wheel, and signals - all this you can control yourself with the help of convenient buttons on the control panel. Perform maneuvers, follow the rules of the road, and deliver passengers on time. Here you can also choose the most suitable bus for you and customize it to your preferences and requirements. Realistic graphics will allow you to feel
like a real bus driver, who leads it through different streets of the city. You will be able to play the game even offline. All the data will be saved on your account, so you can always continue the game at the same place where it was completed last time. This app is free for you, so you will be able to play it without any restrictions. Do you love driving and
want something new? Or do you like dynamic and vibrant simulation games? Then the mobile app Bus Driving Simulator 3D is sure to please you. This interesting and fascinating game will give you new sensations and a lot of unforgettable emotions. It is so realistic that you will feel like a real bus driver. Today you are a school bus driver with years of
experience. Solve the extraordinary problems that keep coming up on your way. Show your wits and don't forget to have fun playing the game. Quality graphics in 3D space will bring the game to life and make it even more attractive.
advanced level. Choose the appearance of your transport, the route, and the speed. More than 140 models of buses and cars are available to you. Make your car the most unusual: use funny stickers and inscriptions. Your task is to bring students to school without delays and accidents. Please note that not every experienced driver is able to cope with
this task. If you wish, you can always leave the mission for later and relax in free-driving mode. Here's a bus driver. The main goal of this game is to let you go through as many driving scenarios as possible. It takes place in Europe and comes with an open world map for you to explore. It
needs to be said, the graphics are made nicely and all the cities and roads look unique. Plus, the game covers a wide range of bus models for you to try, from classic to double-decker ones. Herewith, you get loads of customization options here. For instance, you get to repaint the vehicle, add personalized text, switch the wheels, and add other cool
things that will make your bus the best. The game has a driver's cabin point of view with a fully interactive panel. The cabinets are unique for all the bus models, so keep that in mind. As for the missions, you'll have to take people from one town to another, drive along with a group of tourists shows them landscapes, and all that. Plus, their game
comes with changeable weather and a time system that will affect your routes. Chic graphics, unusual locations, and a huge selection of vehicles are already waiting for you in the new app Bus Simulator Pro. The company Sir Studios has taken care that their invention maximally conveys the atmosphere of driving a bus. The simulator game will not let
you get bored, because you can choose any city, road, and car model to ride. The program allows you to feel the physics of the ride on a large bus. The realism of the app is just off the scale. Plunge headfirst into the fascinating and skills to create
the best route, and get feedback from your passengers. Create your own unique bus to keep the ride fun. Pick your color scheme, rims, and coatings. Decorate your bus with stickers, bright lettering, and graffiti. Here it all depends on your preferences. Obtained during the game experience can be quite compared with the real one. Distract yourself
from your everyday life - Bus Simulator Pro will help you spend many hours of fun and enjoyment. You can install the program on your electronic device absolutely for free. Choose a route, a track, or a bus, and go on a real journey. You may also like: 10 Best racing apps for iPhone This game will test how good your bust driving skills are. Your main
goal in this game is to successfully pass all the levels without damaging your vehicle. Sounds like an easy deal, but some rounds get quite complicated. Plus, it covers a wide range of bus models like a regular city bus, a school bus, a shuttle bus, and more. The game comes with realistic physics and mechanics, so everything looks very lifelike. For
instance, your driving may be impacted by bad roads or weather, and you can run out of gas. Besides, you'll need to keep track of all kinds of flying distractions and street installations that your bus may run into. Apart from the majority of its sister games with cockpit views, this one has a regular racing view. The game comes with a realistic open
world to explore and over 80 missions for you to complete. All the missions for you to take passengers from one point to another in time. And there's also a free drive mode that lets you explore the surrounding environment at your pace. Bus Simulation is
suitable for users of all ages. It does not matter if you have a driving license in real life or not. Get behind the wheel of the bus and show everyone what you are capable of. A huge list of maps and all kinds of routes are available to you. Choose a city, a road, and its length. Discover the quality of the roads in Los Angeles, admire the greenery of Paris,
and experience unbelievable views and chic landscapes along the way. Enjoy a leisurely journey or speed up the bus to full throttle. Today you set the rules for the ride. A huge selection of buses will help you create the right atmosphere. There are 15 options, including school
buses, double-decker buses, and even twin buses. The functionality of the buses is as well thought out as possible. You can open and close the doors at the push of a button. Your passengers can get off the bus for their business, to ask for your help. Even the weather conditions will amaze you with realism and unpredictability. Try to deliver your
passengers on time without getting into trouble on the road. It's an authentic bus sim that lets you get a full-on bus driver experience. The game covers plenty of realistic routes along with Indonesia, so it won't feel like you're driving on the same round over and over again. There are loads of versatile locations like bridges, coasts, and multiple cities.
Herewith, the entire map is a recreation of a real-like one, so there aren't just some random locations. Your goal here is quite simple—to pick up passengers and drive them all in small groups. The game covers plenty of bus models
so you won't get bored with the same one. Beyond that, you'll get to customize the bust entirely by your will. You'll get to customize the bust entirely by your will need money to upgrade the bus, and these may only be earned for passing the missions. The game also has a multiplayer mode, so you can play with your mates.
Have you ever imagined yourself as a bus driver in India? The Bus Simulator Real mobile app will give you the opportunity to feel yourself behind the wheel of an Indian bus. The simulation game is characterized by realism and a huge choice of locations and vehicles. Choose one of the proposed options, sit back and go on the road. Playing in the
game does not require special skills in driving oversized vehicles. Your main goal is to get your passengers get to the right place. Each bus has its own nuances and advantages, which gives the game extra dynamism. Create your own
personal design for your bus. You can choose colors, wheels, and extras for a comfortable ride. To fully appreciate the scenery, you can use pedestrian mode. India is definitely something to surprise you. All natural objects are as close to reality as possible. Forest, desert, and major metropolitan areas are not the limit of Bus Simulator Real's
capabilities. Download the app for free and start your journey on Indian roads. This game will get you through the most challenging bust routes of Brazil. As always, the game covers several bus models will be added in future updates. Herewith, you'll get
to customize your vehicle as needed—you get to repaint your bus, switch tires, upgrade the couches, and more. Additionally, the same has realistic physics, so there are plenty of circumstances that may affect your drive. Or instance, the grip on the track will change according to the terrain and the quality of the road. Besides, the game comes with a
changeable weather system, so it may get rainy, windy, and all that. There are plenty of dangerous routes as well—you may need to drive through dirt roads, saws, and more. You'll even get to adjust the driver's position in the cab.
You may also like: 11 Best Theme Park Building Games for Android & iOS And lastly, we have an interactive bus sim with an India setting. The concept is quite classic—you'll get to drive routes connecting the South Indian cities. Herewith, the game runs on an open-world system, and the maps were precisely recreated from the real ones. The
graphics are great, and all the bus stations along with private operator ones. Frankly speaking, there are buses for every occasion possible—the ones with standard seats, sleeper variant, minibuses, and all that. The power and
the design of the vehicles are also inspired by real buses that are used in India. You'll get to customize your vehicle by repainting it, improving the salon, changing wheels, and more. Plus, you'll need to earn by driving a
passenger. The game cover plenty of versatile missions of different difficulty levels, so there's something for everyone. 12312345678910111213141516171819202122324252627 Embark on a journey through bustling cities, serene countryside, and challenging terrains as you take the wheel of a variety of buses in Bus Simulator: Bus Games. and stunning visuals. Passenger Interaction: Pick up and drop off passengers at various stops. Ensure timely arrivals to keep passengers happy and earn bonuses for your driving skills. Bus Simulator: Bus Games is not just about mastering the art of bus management, maintaining schedules, and delivering passengers safely to their
destinations. Whether you're a casual player or a hardcore simulation enthusiast, this game offers a deep, engaging, and realistic driving experience. Get ready to hit the road and become the ultimate bus driver! The developer, Trance Behling, indicated that the app's privacy practices may include handling of data as described below. For more
information, see the developer's privacy policy. The developer does not collect any data from this app. Privacy practices may vary based on, for example, the features you use or your age. Learn More In the App Store there are many games that you will find that promise to simulate the bus driving experience on your own iPhone. This is something
really complicated to achieve, and that is why we recommend the following points to be able to have the best possible choice: Graphics: a fundamental aspect in any video game, and it is a difficult section to achieve. In this sense, you have to keep in mind that it is important because it will allow you to fully immerse yourself in the world of simulation
so that you can clearly see that you are enjoying a bus. Progression system: sometimes in this type of game there may come a time when you don't really know what to do. That is why you must have specific objectives so that proper driving is rewarded. This is something fundamental and can be found in the progressive unlocking of new buses or also
of different open maps. Variety of vehicles: it is a reality that constantly driving the same bus can become boring. That is why priority should be given to those games that have the possibility of having different bus models that you can use in a variety of ways. Best simulation games when looking for bus games, it's all about finding the best possible
driving and simulation experience. They aim to put you in front of a realistic line with passengers who need to stop at very specific stops or control access. Ultimate Bus SimulatorWithout a doubt one of the best simulators that can be
downloaded are Mexico, the United States, Germany, Russia, Spain, Turkey or the Netherlands. The aim is always to offer the greatest possible realism so that you have an experience as if you yourself were directing the line through these countries. You will start by establishing your bus company and your goal will be to become the largest company
in the world. At first you will have a single bus and very short lines, but in the future you will be able to evolve by investing the benefits you get. And if you don't want to play alone, you can always opt for the multiplayer mode that works really well with people from all over the world. Bus Simulator: Original Game released in 2015 that will allow you to
become a professional bus driver. It includes realistic maps, amazing vehicles, wonderful interiors that will make you feel like driving a real bus. That is why in this game you are going to board and make the bus complete all the routes. With state-of-the-art graphics that include animation of characters, school buses, stuntmen and articulated. The
maps are realistic with the main cities of the world such as Los Angeles, Paris, Rome, Berlin or Alaska among others. You will have different weather conditions. You will find all kinds of places like cities, countryside, mountains, desert or snow. Developer: Alexandru Marusac Public
Transportation SimulatorWe have all been traveling by public transport, especially in big cities. This game pursues exactly the fact of putting you in front of one of these lines. You will be able to enjoy one of the three missions that are
available. With the bus mode, you will be able to transport passengers comfortably around the city, although you will also find the possibility of transporting passengers in a taxi. For each service you perform, you can get experience points. These will allow you to unlock new buses. You can also choose new locations in order to change everything you
see around you. Obviously, you will always have to drive carefully, and respecting traffic regulations, since any accident will penalize you in these experience for those players who love to drive heavy vehicles. It has an expert bus driving
practice and gives an amazing experience of driving the bus in a modern city. The game mode is quite simple, since you will simply have to pick up passengers from the local city carefully at the established stops. Obviously, you are going to have to pick up passengers from the local city carefully at the established stops. Obviously, you are going to have to pick up passengers from the local city carefully at the established stops.
will have a truly addictive experience on a daily basis. The bus must be parked wisely in order to safely pick up tourists and normal passengers. You can find the game mode in the city, at night or during the day. Other ways to play with buses Beyond the simulators that we have mentioned above, you can also find games that belong to other categories
in the App Store. We show them below.Off-Road Bus DrivingAn extremely challenging offroad bus driving game. It goes beyond the typical city simulator, this being a racing game. In this case you are going to be in the middle of the field controlling different buses, being a racing game. In this case you are going to be in the middle of the field controlling different buses, being a racing game. with the bus when making turns or crossing cliffs. You will be able to enjoy great panoramic landscapes with spectacular views and great weather. It only has three different controls, since you will have to focus solely on the speedometer, preventing it from exceeding the established limits, and the direction. In the latter case, what should be avoided
at all times is the use of sharp turns, since the passengers are going to end up complaining quite surely. Bus Parking 3DAs its name suggests, this is a game that will require you to have a great spatial vision, in order to park it precisely. Throughout the
stage you will find different elements to dodge in order to reach the parking lot as such. The different controls that you must follow in order to control the bus will appear on the iPhone or iPad screen. Specifically, you can see the accelerator, the brake, the gearbox to go forward or backward and also the steering wheel. That is why we are facing a
game that can be complicated to use, but that requires learning parking kingA game that is aimed at improving driving skills in general. You can experience bus driving with the iPhone, and the complexity of parking a vehicle that has considerable dimensions. That is why you are facing a great challenge to be able to drive buses, trucks, cranes,
among others. In addition, you can enjoy a wide variety of different scenario options. In these cases, the challenge may be above all to complete the parking in the shortest possible time, while protecting the bus from any type of shield element that you find. You can challenge yourself with other people around you thanks to the multiplayer mode to be
able to have more fun. Our recommendation There are many games of this theme that will be able to be found in this regard. But we definitely recommend you to try Bus Simulator Ultimate, which has really impressive graphics. It offers players a wide variety of vehicles that will adapt to the function that you want to perform with the simulator. You
will finally feel like you are really a driver of a normal bus line in a city. This is something that can also be found in Public Transport, which offers different challenges ahead that reward the good driving you do. Although it can be complicated, in the end the experience you gain will unlock new content, so it has a more than clear progression. In this
