<sup>1</sup> Note that the following argument is not a proof. It is a heuristic argument that suggests that the two definitions of  $N$ -approximability coincide.

If USCIS approves the application, the individual takes the oath of the loyalty and receives a certificate of naturalization. N-400 form N-400 is the official demand for naturalization. It asks a number of questions about the age, residency status and military service of the individual who wants to apply for naturalization. Form N-400 is the form used for applicants for naturalization. Naturalization vs. The DS 160 is for people who want to apply for residency in the United States.
