# Aircom heating

Aircom heating & cooling systems ltd. Aircon heating. Aircom heating and cooling.

You must be this Tall13:20 13 Oct 21 Next to the most fun auto participant, Mr. Drake. Josh and Isaiah installation team were amazing. They worked 9-10 hours almost without pause, tested all systems and left the house running very comfortably. Excellent company and team! Kelly Geary13:42 06 Aug 21 The owner of this business was judiciary, rude and treated me like I was stupid. He's never come with the promises. It is welcome to drive and control the new mini-split system we had installed through Blair Heating and Air. I think he thought we couldn't afford to buy something, but he was wrong. Rick Frye23:13 28 21 July First of all, the technicians sent to my home to perform the installation were professional, in time, and very intent to make sure that my installation was done correctly. I'm yelling at Chris, the chief technician. He took care of more to make sure everything was done well. He's an employee they need to take care of. His attitude of customers and the ethics of work have really been extinct. Thank you, Chris! John Mooney15:00 24 Jun 21 Great service! Fixed the problem when others just wanted to replace it. Great people and great work! Lee Harper16:33 07 Jun 21 Team Drake has installed all the new heating and air conditions as well as advertised. This team was professional, courteous, and completed in time for a fair price. He explained everything in detail. I would definitely recommend Drake for all your needs Hvac. Bill Allen20:55 03 May 21Ed Brown22:14 01 mar 21outstanding service A smart GearTons of great deal Great deals Whether your looking for ammunition guns or just those hard to find accessories and great skills magazines holsters galore highly recommend to stop also it is just to see eye candy Gregory Haskins14:16 22 Dec 20Would highly recommended. We worked with Anthony, Tommy and Zack. My 92-year-old grandmother's furnace went out Saturday. Anthony provided the initial diagnosis, walked us through all the options thoroughly, and also brought on heathers to help until the oven could get installed. The new oven was installed on Monday, super fast! Quality work and would not hesitate to work with them again. I hope these guys get a little extra bonus for the holidays! Robert Durdle16:25 30 Oct 20Jim Fawley12:21 30 Oct 20Chris, as always, came out and did a good job. In all the years when he took care of my hvac needs, he always performed much above the average. I've never had an average experience. He's always been much higher than average. It is not only saleable, but also very easy to have around. I always ask it as my first choice as a technician if it was available. I can't say enough good things about him. Diane Steele00:05 3020Zach was very courteous and scrupulous drake heating and air has always given me an excellent Been service with them for many years. Kris Rhoades13:50 23 Oct 20 I am happy with the service I received. Drake's boys came out and cleaned from dotti and e have performed some repairs on the furnace, the air flow even if my house is now amazing, the unit does not work since it is clean! If you haven't had clean things for a while, I suggest you do it! robin timm20:05 09 Oct 20josh and aaron were super! very professional. thanks for a great jobpatrick boryca11:28 01 oct 20darrell shultz22:28 30 set 20craig pinnick02:25 29 set 20jerry yung01:18 23 set 20robert barnes11:40 22 set 20sestelita hannigan15:11 19 set 20bee jae01:23 19 sep 20vexy professional, kind and well informed. explained everything in detail after installation. It was a pleasure to get my installation with this company and it is lead Joshua.drake was honest with expectations with the delivery of the service and product from the initial consultation/quotation. have always communicated in a professional way and tone. have exceeded my expectations for customer service. I would definitely recommend them to others because of the price and quality of the service. thank you josh and aaron for your courtesy and hard work! hale22:44 17 set 20 tommys and travis did a fantastic job !!! were super friendly, professional, and they were able to explain everything in a simple and understandable way. explained what they were waiting for, what changed, and the different ways to install everything to get the most out of my new system. I could not be happier with work or people to drake heating and air!!!! faye alsbaugh14:40 15 set 20ray homsi13:12 15 set 20vexy happy with the service we received from drake heating and Air.in hampshire00:12 14 set 20rake heating & air installed our heating and ac. the service has always been top order every time we had a problem or simply performing normal maintenance. tim fox01:17 12 sep 20vexy quick fix. Thank you öy ~Schad mcginnis00:59 12 set 20my wife and I are very pleased with their services. have been to our house several times and I have been friendly, informative and punctual. we will continue to use their services and recommend them to anyone! jay weygandt02:24 11 set 20aaron thompson02:23 11 set 2018alpha properties03:40 10 set 20david exceeded expectations and quality service delivered throughout the visit. systematically diagnosed an ac problem from the wiring of the house to the components of the unit. his expert opinion was assessed in assessing the capacity of our unit for our property and addressed us to another team member who could better address our problem at no extra cost. Overall, we were very pleased with the timely and high quality service! doug paugh16:34 04 set 20cathy hundert19:05 01 set 20 the technician, mike smith, was professional, informative, willing to wear a mask and explained everything he was about to do, his recommendations and his order of workAnd the registration we are registered. He was a qualified young patient, kind and sociable. They wear uniforms well designed to identify society and technician. The uniforms show to be proud of their company, their business, their country country themselves. I appreciated the email that introduces my technician with a photo and a short bio. What a wonderful idea! We had repairs and needed Freon. The cost was around my expectations. You have what you pay! I highly recommend this technician and drake heating and air. I called at 15. Monday and had an appointment and air conditioner repaired the next day. What a relief. What a blessing! Stephanie WHITE21:01 31 Aug 20kathy Campbell14:39 28 Aug 20Mike was fantastic! Fast, efficient and professional! Jamie Tuttle14:25 28 Aug 20No helped quickly and the technology knew alot as or had scared other technicians out as I knew more about them as it was an electronic board problem in the unit and I am an electronic engineer, but could not get the manufacture for Give me the specifications on the edge, but he realized that after I told him everything I had done and he was running in 30 minutes when he was already for 5 years. User from here forward. Pamela Lynch21:16 27 Aug 20 They problems with the installation. The property is my rental home. My problem is that they sent a gift of thank you to my tenant when I paid the service ... and the next mail. They have my residence address and apparently ignored it. NARINDER Saini23:34 25 Aug 20Stephen Wise19:02 25 Aug 20Renee C Swensen19:09 20 Aug 20Russell V & Chris H were very friendly and informative. Professional and timely in their service. Steven Crawford16:24 18 Aug 20The climate control system needs about 3LBS of Freon. Company prices for the addition of Freon are high and are not willing to work with the customer. Avery McQueen22:03 17 Aug 20martha Chapman01:43 15 Aug 20 We had a serious loss in the drainage part of the condensation of our system. Mike (I'm sorry, I don't know the surname of Him - I would like to do it) you entered and diagnosed the problem in a few minutes. It wasn't what we thought was. He patiently explained the possible options to solve the problem and again and again until we fully understood. We are satisfied that we made the right decision based on Mike's recommendations. It's really good for your company. All your employees who came here were great, but Mike is over and beyond! RLPontsler16:59 14 Aug 20Tom is always competent, courteous and in-depth. David Kapp18:18 13 Aug 20thomas f. It was exceptional. He spent a considerable amount of time of cleaning and tuning my oven, much more than I expected. I would definitely use Drake again. Steven Baber20:25 12 Aug 20Great Guy Service The best My Favorite John Porterfield15:33 12 Aug 20David Huff12:44 12 Aug 20 When we met for the first time with Steve Chrismer to discuss to replace our AC we spent more than one 'Now ask questions and learn the process. Steve answered all our questions and took us to the best solution for our home. The Tommy and Aaron installation team worked to make sure they protected our home and held it clean during the process. They were assured that they were wearing masks when we had face to face. Tommy Tommy the process as they installed the units and indicated any situation on which he had concerns. He taught us how to use the new NEST thermostats and set the application for us. The system is much quieter in and out. The air is fresher and drier than it has ever been in our 120-year-old house. We look forward to seeing how it works in the winter months. We recommend Drake. The investment is worth it. You get what you pay for, Sharilyn Miller19:09 09 Aug 20Very professional and worked on units in a timely manner. He explained everything he would do to fix the unit. Always satisfied with Drake's service. Theresa Cooper18:43 07 Aug 20Enjoyed Dusty works hard to find an ac solution. You are very competent and professional. He appreciated it a lot taking the time to make sure that I understood JW Plumbing, Heating and Air is a company of pipes and HVAC ready to solve all your indoor comfort challenges in Los Angeles.
