I'm here with me wherever I go Publication date: 2021-09-08 Rated 5 out of 5 by Denik da We love our! After a recommendation from my niece, I bought 2 of the standard mouth with the spout cover a couple of moths ago. We decided to stop buying bottled water. We loved them so much that I bought 2 more recently. We use them almost every day. They keep a drink so cold that the next day there is still ice. Date published: 2021-08-31 Rated 5 out of 5 by Edgar da Worth it ! I bought this bottle five years ago on my trip to Bend, O. Since then, I use this bottle both for daily use and during my travels. Easy to use and fill, that's why I like it! The negative note is that the cap broke after 4 years (still good). Finally, in my opinion the 18 ounces is not big enough for some situations. We live in the Utah desert and he left his bottle of water in our car at 100°C temperature for three hours. when we got back to the car he opened open took a sip and surprisingly the water was still slightly cold. These are great at keeping your liquids cool at hot temperatures. I went ahead and bought three more for my other kids. These water bottles are amazing for hikers in hot temperatures! I also love little ones because they're light enough to carry them with my kids. I highly recommend the Hydro Flask bottles.
