Why you need a VPN While Streaming online, your IP will be exposed easily. Hence ISPs (Internet Service Providers), app developers, government agencies and hackers can track your online activities with ease. At the end of the day, you may face some legal problems if you have streamed any copyrighted contents. To avoid these problems, we recommend you to use VPN (Virtual Private Network). A good VPN lets you hide your real identity by switching your IP to different locations. On the other hand, VPN is also helpful in accessing the media that are geo-restricted. Some of the apps/services like Netflix, Amazon Prime Video, Hulu, BBC iPlayer and more are geo-restricted in certain countries. To bypass those restrictions, you need to install a VPN on your device. ExpressVPN Special Deal After trying out several free and paid VPN services, we recommend you to use ExpressVPN. It is regarded as the best VPN to safeguard your privacy. While purchasing the ExpressVPN, make sure to select the annual plans rather than selecting the monthly plans. You will also get a 49% instant discount on the 12 Months Plan. Moreover, you will also get 3 extra months free with the 12-month plan. Get ExpressVPN Deal All plans are covered by a no-hassle 100% money-back guarantee for your first 30 days of service.
