

I'm not a bot

Dominoes with participle clauses can help students master five key uses in sentences. These uses are time, reason, condition, result, and description. Participle clauses allow for concise expression of these elements, making writing and speaking more dynamic. For instance, students can combine ideas, explain causes, give conditions, show results, and add descriptive details using participle clauses. Mastering these structures enhances clarity and variety in communication, resulting in improved overall fluency.
