After driving it for a year. Now I seriously want a it to be a manual. What will you guys suggest? Swap the transmission or swap this car for a 6MT? what could be expected cost a tranny swap? Aniket Registered User Join Date: Feb 2010 Location: San Francisco Posts: 1,109 Received 12 Likes on 10 Posts here is how you do a manual swap.....sell the auto coupe and get a manual coupe save yourself the headache Registered User Join Date: Jul 2005 Location: Taxachusettts Posts: 8,822 Received 459 Likes on 384 Posts Unless you have sentimental attachment to the car...sell it and buy a stick. I converted a auto car to 5 spd (not a g35)...unless you have a parts car, you are gonna spend a ton of time and effort rounding up all the misc bolts and brackets and such. Then when you go do it....something will always be missing and hard to find Registered User Join Date: Dec 2009 Location: new york Posts: 353 Received 5 Likes on 5 Posts just sell the car and get a stick make life simple for a Gentle Manne of Leisure Quote: Originally Posted by naz0 here is how you do a manual swap.....sell the auto coupe and get a manual coupe save yourself the headache ^ +1 Cost of donor parts + Time spent + Cost of anything broken along the way > Purchase Price - Sales price Registered User Join Date: Feb 2009 Location: Long Beach, CA Posts: 845 Received 3 Likes on 3 Posts i understand it'd be easier and cheaper for him to just sell the car and so on. (Well to me it's more of a hassle, i hate dealing with flakes, lowballers, and people who come to window shop) Sometimes a guy just has too much sentimental value to the car but anyways.. to convert a car to manual, you need to disconnect the current coupling material and install the new one. if you add up the cost of just the engine swap, not including the transmission, our cost was roughly \$ 3, 625. in, infiniti bid farewell to the fx35 with a limited edition model. due to the complexity of these transmission swap kits, it' s best to speak with our performance specialists. how infiniti fx35 manual transmission, many people also need to acquire before driving. the average cost for an infiniti fx35 transmission fluid change is between \$ 195 and \$ 207. read more 1 Follower Comments Registered User Thread Starter Join Date: Oct 2009 Posts: 1 Likes: 0 Received 0 Likes on 0 Posts Location: central .NJ Posts: 161 Received 0 Likes on 0 Posts i say forget about it and just ride out with the automatic its not like its slowyes at times you wanna speed and would like to feel like a street racer and want that stick (no homo) lol lmao but still when it comes to everyday driving AUTOMATIC WINS PERIOD BUT if you want a stick that bad i say sell and repurchase even if you gotta come out your pocket ? = 2B || 12B Join Date: Apr 2009 Location: Tallahassee, FL (or thereabout) Posts: 22,160 Received 850 Likes on 639 Posts Coupe drivers must generally have a bad since of direction Gentle Manne of Leisure if the autos in these cars sucked, I could see some justification, but I've got one of each, and they're both great. If you want to waste a month of your life and dump several grand into your car, just get a supercharger on the auto and laugh at all the 6MT's behind you. Registered User Join Date: Jul 2009 Location: NoVa Posts: 131 Likes: 0 Received 0 Likes on 0 Posts i have an auto and if it were halfway cheap and easy i would do it but it doesnt seem worth the hassle. Just buy a new car if you want a manual bad enough Registered User Join Date: Aug 2005 Location: So Cal Posts: 3,984 Received 161 Likes on 131 Posts Get a valve body upgrade and see if you still want to go manual. Quote: Originally Posted by Choleaoum I understand it'd be easier and cheaper for him to just sell the car and so on. (Well to me it's more of a hassle, I hate dealing with flakes, lowballers, and people who come to window shop) Sometimes a guy just has too much sentimental value to the car but anyways.. To convert you're going to need a bunch of things which includes but not everything such of the big things 6MT Transmission w/ Clutch, Flywheel, Pressure Plate, Clutch Master Cylinder, Shift Linkage, Wiring Harness (I actually found one for 350\$ on craigslist off a Z) Manual Transmission Mount Manual ECU (I've seen people run hondas with automatic ecu's but that's another story, ran like crap) Clutch Pedal Assembly with a new Brake Pedal Shifter Box Crossmember? Throttle Body? Axle? Starter? n. I don't think our car uses shift linkage. We also don't need a wire harness. Only difference is, after the swap, there is going to be a plug or two hanging around. Because the Auto tranny has a few sensors/plugs whatever. You might also want a new gauge cluster. You can use the stock ecu, but the check engine light will be on. In the end, it's not worth it. It also destroys the resale value. Just sell or trade for a manual. Yeah, I ran an automatic ECU in my integra when i converted for awhile lol ran like crap and the CEL annoyed me. I haven't converted because I just decided to stick with being auto but it would be nice to be a 6 speed. I think he can settle without a gauge cluster but it would be ideal to have one. Page 2 Registered User Join Date: Jun 2006 Location: Brooklyn,NY Posts: 4,842 Received 77 Likes on 73 Posts 9k to do the swap with labor... so yeaaa sell and get a manual. Join Date: Nov 2009 Location: Bay Area, CA Posts: 65 Likes: 0 Received 0 Likes on 0 Posts when i was 16 i wanted to convert my auto 240 to manual. i bought a manual g35 8 years later.... Former G35driver Vendor Join Date: Jan 2008 Location: Vegas Posts: 3,684 Likes: 0 Received 23 Likes on 16 Posts Just get yourself a Valve Body upgrade (Transgo) and a Torque Converter upgrade. You'll shift faster and put more power to the wheels than most 6MT guys anyways. Plus, you'll be ready for FI. Registered User Join Date: Apr 2009 Location: nyc Posts: 49 Likes: 0 Received 0 Likes on 0 Posts I agree with the stick to auto or just buy a stick. conversion will lose value an any problems thats caused after would b money. just go 6mt. Registered User Join Date: Oct 2009 Location: Sterling, Virginia Posts: 1,656 Likes: 0 Received 1 Like on 1 Post better off buying a stick. You don't have to worry about "down" time for your car. Registered User Join Date: Feb 2008 Location: Cincy Posts: 976 Received 10 Likes on 9 Posts Quote: Coupe drivers must generally have a bad since of direction ? = 2B || 12B Join Date: Apr 2009 Location: Tallahassee, FL (or thereabout) Posts: 22,160 Received 850 Likes on 639 Posts You can rewire it to shift in the opposite direction pretty easily. Registered User Join Date: Apr 2008 Posts: 285 Likes: 0 Received 2 Likes on 2 Posts Cheaper to buy a stick instead of converting that's for sure. No headache that goes along with it as well. Registered User Join Date: Jul 2005 Location: Taxachusettts Posts: 6,822 Received 459 Likes on 384 Posts Quote: Originally Posted by Rusnak 322 at the time i couldn't find a 4 door x with a stick within 500 miles of me. They don't make the X with a manual trans...auto only. Join Date: Feb 2018 Posts: 8 Likes: 0 Received 0 Likes on 0 Posts I'm in the midst of performing an auto to 6 speed conversion for my 06 G35. How did you figure the exact spots to drill for the and clutch master cylinder? Because there is not stamped imprint on the firewall to give you an idea of where to drill holes. You think creating a template from a car that already has the holes drilled for the and clutch pedal would work? I want to avoid drilling holes in the wrong places and have the line up against the break pedal at the wrong angle, or have the clutch pedal sit too low, too high or too far to the left or right of the break pedal. Join Date: Mar 2018 Posts: 5 Likes: 0 Received 0 Likes on 0 Posts I just picked up a g35 project sedan today, and a new VQ with full 6spd conversion. If anyone could just send me a photo of the engine bay of where there master cylinder is, ill do the leg work and post up where to do it. as ill be doing it this week. otherwise ill wing it. the best way to go about this is line the new pedal up with the existing brake and gas pedal, and mark where the bolts are and just drill. lol ill post photos when im done. Join Date: Mar 2018 Posts: 5 Likes: 0 Received 0 Likes on 0 Posts sorry didnt get a photo but basically, all i did was remove the floor ebrake (needs to be removed as it mounts where the clutch goes) then you drill out the spot welds on the bracket (about 7 spot welds and its a pain in the *** to do) than you get some cardboard and trace the side of the pedal that goes to the firewall and make a little template of where the bolt holes are than line up the pedal on the firewall till you get it roughly where you want it (try and line it up with the other pedals obviously) than grab your template you made and mark the holes with sharpie on the fire wall and drill use a hole saw for the center big hole where the clutch master arm goes through. pretty straight forward. def need 2 people to bolt it up though can be a bitch otherwise mainly anyone can help even a kid or gf, they just need to hold it in place while you bolt the pedal assembly on. ill grab some photos today of everything. i just got the new motor and manual tranny bolted up last night. ALSO you only need to replace the front half of the drive shaft when doing this swap. its VERY easy to do this swap, and honestly fairly inexpensive. im into my g35 sedan for 2500\$ and maybe another 200\$ in random little bits like hardline for a clutch line im making and new fluids/ shop supplies. granted i need to replace the whole front clip since it was robbed before i bought it. otherwise its mint. minus the driver side door that i got caught on my hoist and bent a bit Q Q auto, automatic, conv, conversion, convert, coupe, ecu, g35, infiniti, manual, mauel, reflash, shift, stick, swap, transmission
